2.2. Errors

While confirming of the invoice, Directo checks if the settings are filled correctly. If there is something incorrect - there is no possibility to confirm the invoice with checkbox **e-sending**. You may confirm invoice with out the checkbox **e-sending** - it will not be send to KSEF.

For example, in the picture we see error message.  
The error is in field AdresL1

In wiki part **3. Sales invoices tags** you have to find AdresL1 field and check the setting according to the description:

Name	Description
Podmiot1	Information about the seller
Adres/AdresL1	Setting→Master Settings→Company legal address
Podmiot2	Information about the buyer

https://wiki.directo.ee/

Printed on 2024/06/03 00:45

Name	Description
Adres/AdresL1	Customer fields: <b>Street, City, Postal code</b>

Confirming check..

Invoice needs to be sent as e-invoice, but sender/customer/invoice contains data that does not validate - XSD version: KSeF\_FA2  
XML Validation: Invalid simple type value: ". Location: /\*:Faktura[1]/\*:Podmiot2[1]/\*:Adres[1]/\*:AdresL1[1]

Invoice is not confirmed!
