Sisukord

Administrator settings

- **Automatic logout in hours (0.1-12)** - number field
- **Doctype header for printouts** - text field
- **Excel report leaves a hole** - if there is a need to update an Excel report directly from Excel, not from Directo. Creates a cookie on the user's computer, which can persist even after the password expires. Logging out or passing 12 hours will lose the hole.
- **Maintenance flag** - if it is filled, some documents (invoice, price change, inventory, income, salary) cannot be approved. The system automatically fills in the expected maintenance end time during maintenance. Maintenance can be started from the maintenance report under Finance.
- **ID card / Mobile-ID / Smart-ID login** - options No/Yes
- **ID login only** - options No/Yes
- **Can user log on with the same name twice?** - options No/Yes
- **For multiple recipients email is sent separately for every address** - options No/Yes
- **Lockout time in minutes** - if the user account has been locked, within what time can the same user try again (so that you can't try all passwords endlessly).
- **Lockout tries** - after entering the wrong password X times, the user and the computer (IP) that tried to log in will be locked.
- **Log age in days** - system internal log. If left too long, the system may slow down. The recommended time is a week.
- **Log age in transactions** - one row is like one turn
- **Object hierarchies are editable** - option No/Yes
- **Object filter is strict equation in document browsing** - option No/Yes
- **Objects are without levels** - option No/Yes
- **Password complexity level 0-3** - number field
- **Password mandatory change in every X days** - number field
- **Password minimum length** - number field
- **Password warns before change - number in days** - number field
- **Password cache count for changed ones** - number field
- **State Balance Sheet start date** - date
- **Saved Report user replacement** -
- **Saved Report user group replacement** -
- **Saved Report stock replacement** -
- **Saved Report object replacement** -
- **SMS sender phone** - options default, users mobile phone, location/user work phone
- **SMS-messaging configuration** - Sender name, Username, Password
- **SMS-messaging service provider** - options none, iSMS, Messente
- **System language** - system default language
- **Currency rates are updated automatically** - options No/Yes
