# Budget

## Financial Budget

FINANCE > Settings > Budgets

Financial budget can be created in Directo or by using Bulk import button to add rows from Excel. The budgets created can be seen on the Balance and Income Statement reports. Different budgets can be compared with each other and with actual results.

### Settings

FINANCE SETTINGS

Default Budget Type

Default budget type can be added in the system settings. When a new budget is created, the type is filled in from this setting, if the setting is filled. It can be overwritten.

### Document fields

- **Type** - budget type. Filled in from settings, if the default setting is filled. Type can be changed later.
- **Number** - budgets number according to the financial series
- **Date** - date
- **Reference** - specifying option

- **Description** - comment field
- **Turnover D** - budget debit turnover
- **Turnover K** - budget credit turnover
- **Difference** - budget debit and credit turnover difference
- **default object, project, customer, supplier** - by filling these default options, the same options are placed on all budget lines, when placing the account. By changing the options in the header, the changed options are placed on the next new line when placing the account. Does not affect previously placed rows.

## Creating a financial budget

A new document is entered for budget, where desired rows are added. Financial budget is entered by accounts. If a budget is created based on objects and/or projects, then accounts are entered on a separate line for each object. Budget can be made for the whole year and split into months or made on a monthly basis. In this case, a separate budget document will be entered for each month, where the first date of the month is entered in the Time field (this makes it possible to make a comparison with the budget on a daily basis). Type connects budgets together, for example all the budget documents for the same year should have the same type. However, several budgets can be made for one year also, for example optimistic and pessimistic, in this case their types should be different (different types for optimistic and pessimistic), otherwise they will all be added together. When making a supplementary budget, it should be with the same type.

## Creating a financial budget for the entire period at once

- **Entering full year budget in the the budget document**

NO	Account	Object	Description	Debit	Credit	VAT code
1	411001	TALLINN	Sale of goods		1200000.00	
2	411001	TARTU	Sale of goods		2400000.00

- **After pressing Split Budgets button a window opens, where a period should be entered between which the amounts must be divided**

Select options

Range: FIN

Description: 2022 Budget

Period: Month

Date1: 01.01.2022

Times: 12

Date2: 01.12.2022

Object Exact

Object Forward

Object Exact

- **Range** - financial series from which transaction numbers are formed.
- **Description** - text field, will be added in the description field.
- **Period** - options week, month, quarter - the budget will be split according to this option.
- **Date1** - beginning of the period
- **Times** - how many times will it split
- **Date2** - end of period
- **Object exact** - for example object MYYK - selects only those budget lines from the budget that contain the exact object or set of objects.
- **Object** - for example object TALLINN - selects all lines from the budget that have used this object.
- **Forward** - divides the budget according to the parameters indicated above.
- **The exact amounts for each month will be entered in the budget split window**

All amounts are initially in the period of the original budget document. By right-clicking in the amount field, you can choose how the amount will be distributed from the window that opens.

Create Budget

- **Spread apart** - divides the amount in this field equally for all periods.
- **Add amount** - opens a new window where an additional amount can be entered that will be added to all periods in this row.
- **Spread previous season** - divides the amount taking into account the amounts of the previous same period for the same account and item.
- **On sum field - Spread as add on** - By right-clicking on the amount field, it is possible to divide the additional amount into periods.

Example: The amount in the sum field Spread as add on divides the amount added by each month.

 It is possible to use several filters. While working with budgets, e.g. In the explanation box, write a word that makes it easy to filter and, if necessary, delete after.

## Financial Budget reporting

The function of comparing the periods of the income statement is used to control the filling of the financial budget. It is possible to compare up to twelve different periods at a time. There are three

periods in the options, but you can add them using the + button next to the last available period filter.

It is also possible to turn on the display of the percentage difference under fine-tuning and set the percentage of decimal places.

The source for the different period numbers can be actual financial entries or budget entries with a specific code. The difference between the amounts of the periods can be viewed from the perspective of difference or performance. To do this, next to the period, you need to choose which other period the data will be compared with and determine how the financial and percentage difference is calculated.

Example: A budget with CONSTRUCTION type has been prepared for year 2021 where 500 euros sales revenue is forecasted in Estonia and 1000 euros for exports. In reality the earning are 750 euros in Estonia and 2000 euros in export markets. The results of the reports with different options are as follows.

1. Option F-

Income Statement				
1. Period	01.01.2021	: 31.12.2021	Compare	Project
CONSTRUC	01.01.2021	: 31.12.2021	1   F--	Customer
3. Period		:	1   +	Supplier
Language	English		(split)	<input type="checkbox"/> split objects <input type="checkbox"/> with name <input type="checkbox"/>
Unit/round	0,01			<input type="checkbox"/> remove close
	01.01.2021 CONSTRUCTION:	01.01.2021		Diff
	31.12.2021 CONSTRUCTION:	31.12.2021		Fulfilled%
				(I-II) (II/I)
<b>Operating income</b>				
*	2 750,00	1 500,00	1 250,00	183,33%
<b>1.Net turnover</b>				
411002 Sales in Estonia	750,00	500,00	250,00	150,00%
411005 Export	2 000,00	1 000,00	1 000,00	200,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>	<b>1 250,00</b>	<b>183,33%</b>

Revenue is 1250 euros higher than in the budget, so the budget is 183.33% filled.

2. Option F+

Income Statement

1. Period  :  Compare Project  ⊕ F

CONSTRUC  :  1  Customer  ⊕ C

3. Period  :  1  + Supplier  ⊕ Cur

Language  (split)   split objects  with name

Unit/round   remove closed

	01.01.2021 CONSTRUCTION:	01.01.2021 31.12.2021 CONSTRUCTION:	31.12.2021	Diff (I-II)	Fulfilled% (I/II)
<b>Operating income</b>					
*	2 750,00	1 500,00		1 250,00	54,55%
<b>1.Net turnover</b>					
411002 Sales in Estonia	750,00	500,00		250,00	66,67%
411005 Export	2 000,00	1 000,00		1 000,00	50,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>		<b>1 250,00</b>	<b>54,55%</b>

Revenue is 1250 euros higher than in the budget, so the budget is 54.55% of revenue.

3. Option F++

Income Statement

1. Period  :  Compare Project  ⊕ R

CONSTRUC  :  1  Customer  ⊕ O

3. Period  :  1  + Supplier  ⊕ Cur

Language  (split)   split objects  with name

Unit/round   remove closed

	01.01.2021 CONSTRUCTION:	01.01.2021 31.12.2021 CONSTRUCTION:	31.12.2021	Diff (II-I)	Fulfilled% (I/II)
<b>Operating income</b>					
*	2 750,00	1 500,00		-1 250,00	54,55%
<b>1.Net turnover</b>					
411002 Sales in Estonia	750,00	500,00		-250,00	66,67%
411005 Export	2 000,00	1 000,00		-1 000,00	50,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>		<b>-1 250,00</b>	<b>54,55%</b>

Budget is 1250 euros lower than the actual revenue and makes 54.44% of it.

4. Option F+-

**Income Statement**

1. Period  :  Compare Project  ⊕ R

CONSTRUC  :  1  Customer  ⊕ O

3. Period  :  1  + Supplier  ⊕ Curr

Language  (split)   split objects  with name  I

Unit/round   remove closed

	01.01.2021	31.12.2021	CONSTRUCTION:01.01.2021	CONSTRUCTION:31.12.2021	Diff (II-I)	Fulfilled% (III/I)
<b>Operating income</b>						
*	2 750,00	1 500,00			-1 250,00	183,33%
<b>1.Net turnover</b>						
411002 Sales in Estonia	750,00	500,00			-250,00	150,00%
411005 Export	2 000,00	1 000,00			-1 000,00	200,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>			<b>-1 250,00</b>	<b>183,33%</b>

Budget is 1250 eurose lower than the actual revenue, so the budget is 183.33% filled.

5. Option D-

**Income Statement**

1. Period  :  Compare Project  ⊕

CONSTRUC  :  1  Customer  ⊕

3. Period  :  1  + Supplier  ⊕ C

Language  (split)   split objects  with name

Unit/round   remove close

	01.01.2021	31.12.2021	CONSTRUCTION:01.01.2021	CONSTRUCTION:31.12.2021	Diff (I-II)	Diff% (III/I)
<b>Operating income</b>						
*	2 750,00	1 500,00			1 250,00	83,33%
<b>1.Net turnover</b>						
411002 Sales in Estonia	750,00	500,00			250,00	50,00%
411005 Export	2 000,00	1 000,00			1 000,00	100,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>			<b>1 250,00</b>	<b>83,33%</b>

Revenue exceeds the budget by 1250 euros or 83.33%

6. Option D+

Income Statement

1. Period  :  Compare Project  ⊕

CONSTRUC  :  1  Customer  ⊕

3. Period  :  1  + Supplier  ⊕ Co

Language  (split)   split objects  with name

Unit/round   remove close

	01.01.2021 CONSTRUCTION:	01.01.2021 31.12.2021 CONSTRUCTION:	31.12.2021	Diff (I-II)	Diff% (I/II)
<b>Operating income</b>					
*	2 750,00	1 500,00		1 250,00	-45,45%
<b>1.Net turnover</b>					
411002 Sales in Estonia	750,00	500,00		250,00	-33,33%
411005 Export	2 000,00	1 000,00		1 000,00	-50,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>		<b>1 250,00</b>	<b>-45,45%</b>

Revenue exceeds the budget by 1250 euros and the budget is 45.45% less than the revenue.

7. Option D++

Income Statement

1. Period  :  Compare Project  ⊕

CONSTRUC  :  1  Customer  ⊕

3. Period  :  1  + Supplier  ⊕ Co

Language  (split)   split objects  with name

Unit/round   remove close

	01.01.2021 CONSTRUCTION:	01.01.2021 31.12.2021 CONSTRUCTION:	31.12.2021	Diff (II-I)	Diff% (I/II)
<b>Operating income</b>					
*	2 750,00	1 500,00		-1 250,00	-45,45%
<b>1.Net turnover</b>					
411002 Sales in Estonia	750,00	500,00		-250,00	-33,33%
411005 Export	2 000,00	1 000,00		-1 000,00	-50,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>		<b>-1 250,00</b>	<b>-45,45%</b>

Budget is 1250 euros and 45.45% lower than the actual revenue.

8. Option D+-

Income Statement

1. Period  :  Compare Project  ⊕

CONSTRUC  :  1  Customer  ⊕

3. Period  :  1  Supplier  ⊕ Cu

Language  (split)   split objects  with name

Unit/round   remove close

	01.01.2021 CONSTRUCTION:	01.01.2021 31.12.2021 CONSTRUCTION:	31.12.2021	Diff (II-I)	Diff% (II/I)
<b>Operating income</b>					
*	2 750,00	1 500,00		-1 250,00	83,33%
<b>1.Net turnover</b>					
411002 Sales in Estonia	750,00	500,00		-250,00	50,00%
411005 Export	2 000,00	1 000,00		-1 000,00	100,00%
<b>Total 1.Net turnover</b>	<b>2 750,00</b>	<b>1 500,00</b>		<b>-1 250,00</b>	<b>83,33%</b>

Budget is 1250 euros less than the actual revenue and revenue exceeds the budget by 83.33%

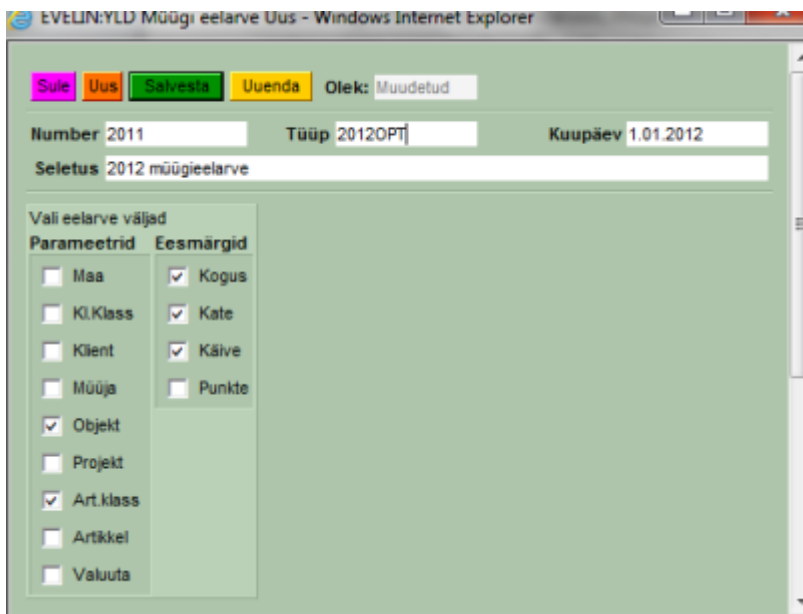

If it is not specified in the fine-tuning that the difference is also shown as a percentage, there are half as many options as only financial differences can be shown. The options are:

- F-
- F+
- D-
- D+

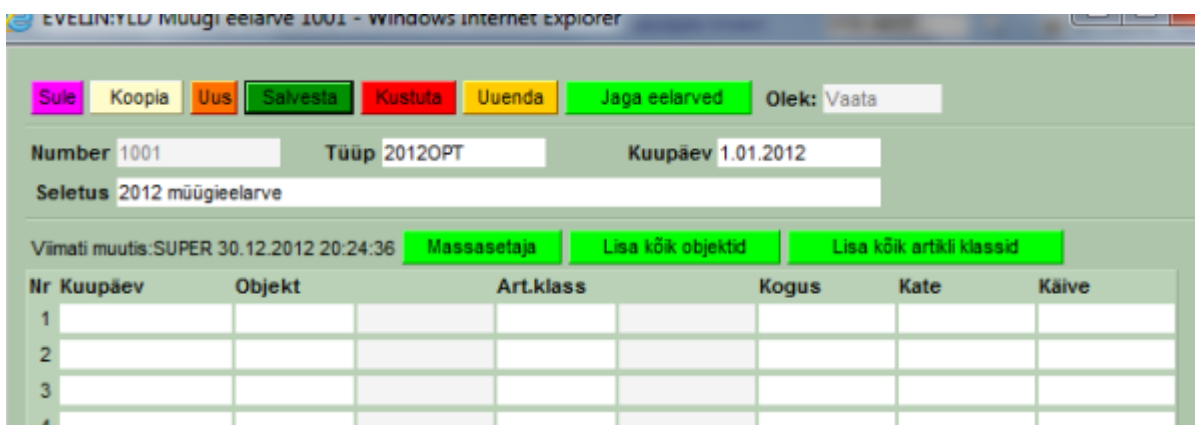

## Müügieelarve

MÜÜK > Seadistused > Müügi eelarved

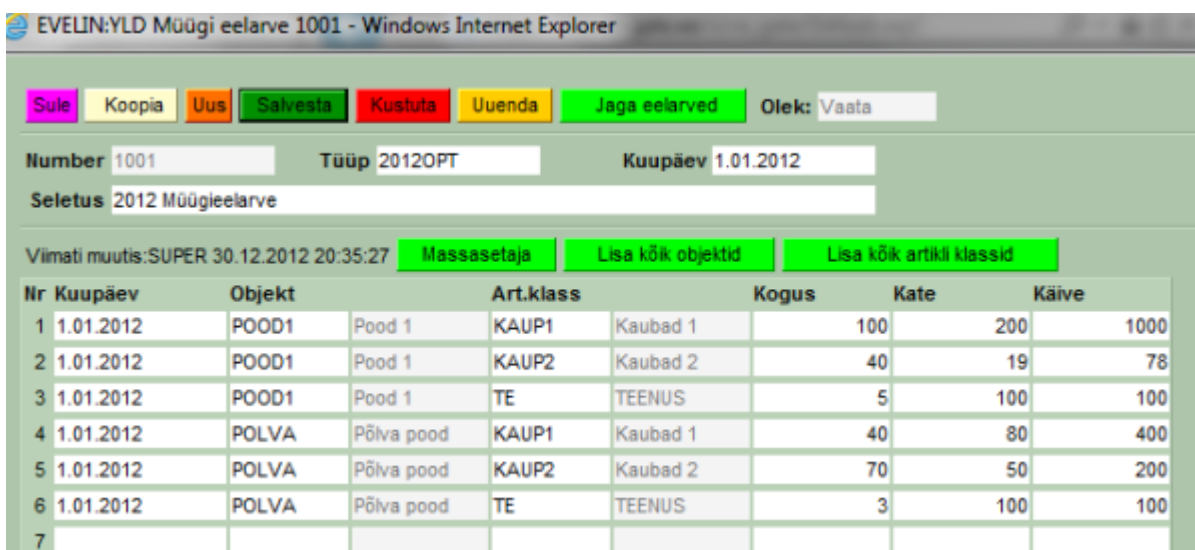

Eelarve tegemiseks vajutada Lisa uus, mispeale avaneb aken, kus tuleb määrata eelarve alguse kuupäev ja eelarve tüüp, samuti teha valik, mille suhtes eelarvestama hakatakse. Samamoodi võib ühte perioodi luua mitmeid erinevaid eelarveid (neid eristab tüüp, nt optimistlik, pessimistlik).

Peale salvestamist avatakse eelarve dokument valitud väljadega.

Siin on võimalik abiks ridadele lisada kõik objektid või artikliklassid, samuti on võimalik tabel ette teha Excelis ja see siia massasetada. Kui on soov kasutada ka siin eelarve jagamist või sisestatakse iga kuu/period omaette dokumendile, siis pole reale kuupäeva salvestamine vajalik, sest mõjub päise oma, see lisatakse salvestamisel ridadele automaatselt.

Kui sisestada alustuseks nt aasta eelarve, siis saab seda jällegi jagada nupu Jaga eelarved abil. Avanev vaheaken on sarnane finantseelarve jagamise vaheaknale. Erinevuseks on see, kas eelarve

luuakse samale dokumendile või iga periood omaette dokumendile. Selguse huvides võiks igasse perioodi oma dokumendi luua.

Vali parameetrid

Seeria: 2011
