The F2 key in the Nominal Ledger window opens a new financial transaction.

If for example an object has been deleted, a warning will be displayed when the financial transaction is saved, but the transaction will still be saved.

## 4.5. Only with balance

If an account has a lot of transactions and there is a need to check only transactions that has closing balance for example by supplier. It is possible to choose Subtotal by Supplier and only with balance, then all suppliers that have closing balance 0 are excluded (only sum filter must also be chosen).

### Example

Nominal Ledger with subtotal by Supplier and **without only with balance** option.
