STATISTICS	<input type="text"/>
VALID FROM	<input type="text"/>

- **Code** - financial account numeric code. The length can be from one to 32 digits. It is not recommended to use other symbols than numbers.
- **Name** - finance account name
- **Vat code** - VAT code placed on the transaction or document when the account is placed.
- **For stock depr.** - options YES/NO. If YES is selected, this account can be used in stock depreciation transaction. By default it is empty, which is equivalent to YES.
- **Closed** - Is the account closed YES/NO. By selecting YES, the account can be closed and the account can no longer be used for transactions. It is still possible to use the account in reports.
- **Class** - finance account class. Options Asset, Equity, Expense, Income, Liability, Off-Balance. The account class must be correctly entered on the account, necessary to create correct transactions, annual closing transaction and reports.
- **Corr. account** - is used for automatic document transaction periodization. A balance account where incomes and expenses for future periods are periodized.
- **Taxonomy** - taxonomy code
- **Transaction objects** - can specify the object(s) to be added to the transaction by overwriting the objects of the same level that came from the documents. For example, if the account has Tallinn and the row has Mart, then Tallinn,Mart is entered to the transaction. If Tartu,Mari is on the row and Tallinn is on the account, then Tallinn, Mari will be entered to the transaction.
- **Transaction projects** - can specify a project to be added to the transaction by overwriting the projects that came from the document.
- **Employee benefit** - Only for ESTONIA !. You can choose which TSD Annex 4,5,6 fringe benefit field the account turnover is related to. It is useful to specify if is wanted the fringe benefit fields to be filled in when submitting the TSD to the Tax and Customs Board.

In front of each fringe benefit option, there is a code that shows which TSD Annex 4, 5 or 6 row exactly the account turnover data goes to.

Create necessary number of accounts to be able to automatically submit TSD annex. For example, two separate financial accounts should be created for gifts. One up to the established limit and the other for gifts that cost more than the limit.

- **Statistics** - a selection of statistics report codes
- **Valid from** - the date from which the account can be used and from which transactions cannot be made in an earlier period.
- **Account demands** - can specify which mandatory parameters must be additionally specified whenever this account is used.

- **Mandatory** - can specify which object level objects must be filled in the transaction.

MANDATORY	Object levels

<input type="checkbox"/>	8 OSS ja IOSS erikorra riik
<input type="checkbox"/>	9 Internal transaction/External transaction
<input type="checkbox"/>	13 Riigi rahavood
<input type="checkbox"/>	14 Sisestehing/Välistehing
<input type="checkbox"/>	15 DEPARTMENT

Before deleting the account from the account plan, check from the General Ledger whether the account has been used!

## 2. Deleting accounts

If the account has been used in system settings, settings and documents, accounts cannot be deleted. When deleting, a message will appear showing where the accounts have been used.

Finance Settings > Finance accounts > 100055

### Deleting failed!

usage check  
Transactions  
Purchase invoices  
Settings Realization report Stock level change depreciation accounts

Shows where the account has been used

### Deleting failed, there are rows in history!

[Back](#)

If the accounts has only been used in system settings and you want to delete the accounts, delete and replace those accounts.

## Directo settings

The screenshot shows the Directo settings interface. A search bar at the top contains the account number '100055', which is highlighted with a red box and has a red arrow pointing to it from the text 'Write the account number' located above the search bar. The search results for '100055' are displayed below, showing 'Search results "100055":' and a list of results under 'System settings (1)'. One result, 'Realization report Stock level change depreciation accounts', is highlighted with a red box and has a red arrow pointing to it from the text 'Can see where the account has been used' located to its right. The sidebar on the left lists various financial settings categories.

## 3. Examples

### How to grant rights to see only certain account statements

If the user is allowed to see a limited number of accounts, should create a personal Balance Sheet and/or Income Statement description for the user, where can highlight the accounts that are allowed and give the user limited rights:

#### 1) System setting

The screenshot shows the 'FINANCE SETTINGS' section. It contains a setting for 'Fiscal Reports can open Fiscal Ledger with' and 'Ledgers own right'. There are two radio buttons: 'no' (unselected) and 'yes' (selected, indicated by a blue dot). The 'yes' option is highlighted with a red box and has a red arrow pointing to it from the text 'Can see where the account has been used' located to its right.

#### 2) User or user group rights

## Change group rights "Accountant assistant" Save

Documents Reports Setting Other

### Finance

Report	Unassigned	Denied	Own	Extended	All
Balance	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Income statement	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Finance Statistics	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
VAT declar.	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nominal Ledger	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Transactions list	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

3) Create a **balance sheet** or **income statement** with only the accounts that the user can see and in the employee cell add a comma-separated list of users who can see this report.

4) User can only open a balance sheet or a income statement, where he/she is **marked as a user**

5) From the **balance sheet** you can open the **general ledger**, **only one account at a time**.

6) **From general ledger report can see all the allowed accounts statements** - write a comma-separated list of accounts in the account start field. Alt+A can be used to save under saved reports.

**Finance Report - Nominal Ledger**

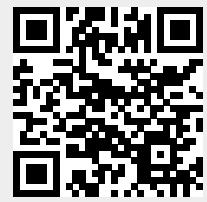

**A user with limited rights** can save the same report to the account start field by adding it as an accounts + list.

**Finance Report - Nominal Ledger**
