- **Print Invoices** - Prints invoices (Possiblity to choose print layout)
- **Print layout selection** - Print layouts shown in the selection, which are editable

Meeldetuletuse saatmine Laekumata arvete aruandest

Selleks, et näha teatud perioodis laekumata arveid, tuleb valida vastav ajavahemik, mille sisse arved peavad jääma. Samuti saab arveid sorteerida ületähtaja läinud päevade järgi.

Kui kliendil on mitu arvet ületähtaja ja laekumata, siis nende kohta saab saata ühe meeldetuletuskirja. Selle jaoks tuleb valida aruandes **Kokku: Kliendi lõikes**. Linnuke kastis **Kiri** määrab ära, kas sellele kliendile saata meeldetuletuse meil või mitte.

Meeldetuletusmeili saatmiseks tuleb valida rippmenüüst sobiv väljatrükk ning vajutada **Meili Meeldetuletus** nuppu. Eelvaadet saab näha **Trüki** nupu alt.

E-mail läheb kliendikaardil märgitud meilile.

⚠️ Jälgi, et peenhäälestuse alt on valitud kliendi lisaväli, kus on e-mail märgitud
Lisaväljade loomise juhend [Lisaväljad](#)

Lisavälja loomise näide :

Maksegraafiku esitamine aruandes

Maksegraafiku kohta saab lugeda Maksegraafik

Arvega seotud maksegraafiku info (graafik, graafikujärgne saldo) esitamiseks tuleb aruande peenhäälestuse alt märkida **Näita graafiku ridu**, **Näita graafiku saldot** ja **Üle tähtaja arvestab graafiku kuupäevi**:

Seejärel ilmuvad aruandesse ka graafiku read ning graafiku saldo:
