Sending Notice Letter from Unpaid Invoices Report

To display unpaid invoices it's neccesary to select desired range of period for given invoices. It's also possible to sort invoices by days overdue.

If Customer has more than one invoice unpaid overdue, it's possible to send one notice letter for all

these invoices. For that it's neccesary to choose **Sum by Customers**. Selecting checkbox "Notice" defines if this Customer will receive notice letter.

Select suitable print layout for sending Notice Letter and press **Mail Notice** button. Preview can be seen by pressing "Print".

E-mail will be sent to the address set on the Customer Card.

Make sure that in Fine Tuning settings there is a possibilty to use Customer Card Datafield for sending e-mails.
