## How can I change balance in EUR to USD?

If the account should have USD-s, but until now the transactions have been made in EUR-s, then in order to adjust the account, EUR-s must be written off and USD-s must be received.

Example: The account must have 1000 USD on 31.03.2021, but there is 852.88 EUR (which is worth 1000 USD).

- The account still has transactions in EUR-s and the balance has been manually revalued to be correct as of 31.03.2021 exchange rate
- I make a financial transaction to adjust the amounts - I transfer USD-s instead of EUR. Enter the sums to correct the currency to the transaction Cur. debit field and currency cell - minus EUR-s on the account instead of USD-s.

If the account has currency that has not been revalued, then currency revaluation transaction should be made first. Then in the future can use Maintenance > Currency rates > Currency rate converter to convert currency rates.

## BANK STATEMENTS

### Why does the bank statement START BALANCE DIFF sum is shown in red

If there is a red non-zero number in the DIFF cell, it means that the bank start balance for that day and the Directo account start balance are not equal. If the DIFF cell has a number for a long time, look at the previous days bank statements and find a bank statement with a start balance DIFF a zero and start checking from that day.

**Start balance** block contains information fields

- **In fail** - shows start balance in bank
- **Directo** - shows account start balance in Directo
- **DIFF** - shows the bank statement start balance difference

If everything is correct, the DIFFERENT sum will be a 0.00 number in black colour.

Date: 25.08.2022			
Start balance Final Balance			
In file:	232 565.81	240 925.42	EUR
Directo:	232 565.81	240 925.42	EUR
DIFF.:	0.00	0.00	

If the day's start balance does not equal to the bank start balance statement in Directo, DIFF will show a red number.

Bank Statements 220723\_v2 - Work - Microsoft Edge

1													
2													
3													
4													
5													

If there is a sum, then the bank day Start balance in Directo is incorrect

If the DIFF number is red on the bank statement, it means that the previous day's bank statement final balance is not the same sum in the financial account and in the bank.

- Go to the **previous** day bank statement and check if all rows are covered with transactions.
- Check if all receipts and payments have been confirmed in the **previous** day's bank statement.
- If all the lines have been checked and there is still a difference, look at this account **previous day's** statement in the nominal ledger and check if all the rows are there.

Errors, that may occur

1. financial transaction has incorrect account
2. payment, receipt, etc. not created
3. payment, receipt has been created, but not confirmed
4. double payment, receipt has been created
5. accidentally have been deleted some bank service financial transaction
6. by mistake, the date was changed when making a copy of the bank service transaction

Find the error and fix it. DIFF sum is always 0.00 if everything is correct.

## If the bank statement is linked to the wrong document, what to do?

- Remove the wrong link in the row by pressing the red X in the Type column

Not used

Click on the red X and disconnect

Currency	Sum	Fee	Reference no	Payment No	Rule Type	Doc no	Account
EUR	2850.77		32212691	1075	ADD	Receipt [X]	220286

- Select the document type and create a new link
- Check, if the correct connection was made
- Check account statement
- Mark the bank statement as closed

## Can a bank statement be linked to a financial transaction already made?

Financial transactions that are not created directly from a bank statement **cannot** be linked to a bank statement. When checking the bank statement, add Type „Not used“ to these bank statement lines. When all actions related to the bank statement have been completed, mark the bank statement as

closed.

## I transfer money from one bank account to another, why a double entry occurs?

If money is transferred between your own bank accounts and both bank accounts appear in the bank statement, you must check that only one bank statement has a financial transaction and on the other bank statement is marked „Not used“.

Example: **Without a rule** If both bank accounts appear on the bank statement, start with the account statement from which the money was withdrawn

ALL	Not used	Receipt	Payment	Transaction	Card payment	Expense due	Cash	Salary payment	Set type for selected	Not used	
NO Date	Account No	Reg No/ID number	Company	Description	Currency	Sum	Fee	Reference no	Payment No	Rule Type	Doc no Account
1										ADD	Transaction [X]
2	30.01.2021	EE865555221	My own company's name	Money transfer	eur	200.00				ADD	Transaction [X]
3					EUR	20000.00				Not used	100074 113101
4										Not used	10201
5										Not used	
6										Not used	
7										Not used	

Account number to which the money was transferred

If you don't want to create rules for the bank statement, can select a transaction and mark the account where the money goes to. To create a transaction, click Transaction option and Create transaction from the top bar to activate it.

### Transaction

1	10202			Minu oma firma nimi raha ülekanne		200000.00	
2	10201			Minu oma firma nimi raha ülekanne	200000.00		

Mark the row „Not used“ on the money income bank statement, because the transaction has already been prepared.

ALL	Not used	Receipt	Payment	Transaction	Card payment	Expense due	Cash	Salary payment	Set type for selected	Not used	Generate: Transaction
NO Date	Account No	Reg No/ID number	Company	Description	Currency	Sum	Fee	Reference no	Payment No	Rule Type	
1										ADD	Transaction [X]
3	30.01.2021	EE865555221	My own company's name	Money transfer	EUR	20000.00				Not used	

## I transfer money from one bank account to another. I use a bank statement - how should the bank statement rules be created?

2) **Rules: option 1.** If you have a lot of money moving between your bank accounts, you can create bank statement rules, that make transactions themselves.

Create a new rule from the bank statement row (Rule column - Add), where the necessary fields are

filled in:

### Add new

CODE	<input type="text"/>	Write the rule code, for example ACCOUNT_6221 (the last 4 digits of the bank account)
NAME	<input type="text" value="My own company's name"/>	
PAY MODE	<input type="text" value="T"/>	?
PRIORITY	<input type="text"/>	?

### Rule conditions

DIRECTION	<input type="text" value="Out"/>	
OTHER PARTY NAME	<input type="text" value="My own company's name"/>	?
OTHER PARTY ACCOUNT NUMBER	<input type="text" value="EE86 6221"/>	
SUM	<input type="text" value="200.00:200.00"/>	delete the sum, then the rule always applies despite the sum
CURRENCY	<input type="text" value="eur"/>	
DESCRIPTION	<input type="text" value="Money transfer"/>	?

### Outcome

TYPE	<input type="text" value="Transaction"/>	If you select "not used", then to the transaction row is written "not used" and you do not need to do anything
CUSTOMER	<input type="text"/>	
SUPPLIER	<input type="text"/>	
ACCOUNT	<input type="text" value="10201"/>	Write account number. The account is important for the transaction, objects and projects according to your need.
FEE ACCOUNT	<input type="text"/>	
OBJECT	<input type="text"/>	
PROJECT	<input type="text"/>	
VAT CODE	<input type="text"/>	
EMPLOYEE	<input type="text"/>	
FINANCE RECIPE	<input type="text"/>	
REFERENCE	<input type="text"/>	
COMMENT	<input type="text" value="Payment between your accounts"/>	Write if you wish. No need to mark
PAY MODE	<input type="text"/>	
DETECT CUSTOMER	<input type="checkbox"/>	
DETECT SUPPLIER	<input type="checkbox"/>	

You can always test the rule by saving and if the transaction is not created as you want, you delete it. Open the rule and change until you get the desired result. Save the rule. Save the bank statement again - then transactions that have not been created are created based on the rules.

3) **Rules: option 2.** If you don't want to use the „Not used“ rule, you must create a rule for both bank statements, where the account is the bank's suspense account „money transfer“, choose yourself

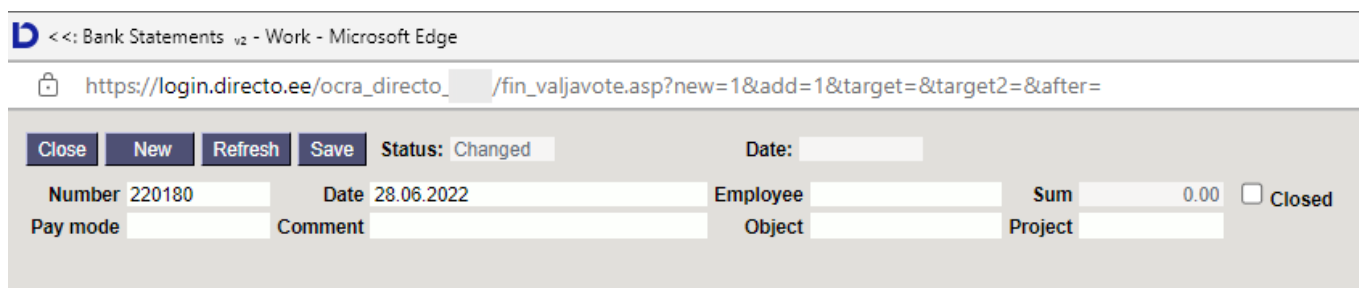

- Download the required day's bank statement - file format ISO\_XML\_

- Create a new bank statement in Directo

- Mark **Payment mode** and save, after that a button will appear
- Upload the file and press IMPORT

IMPORT SEPA EST

- After uploading will apply all automatically configured actions
- Check
- If the same day statement is received later, delete the duplicate bank statement

## The user can't see some bank accounts statements and information

Make a separate payment method for each bank account. We can limit the rights through payment visibility rights. Under user rights or user group rights, add the right to see restricted payment rights.

Visibility rights

Forbidden	Allowed	Right
<input type="radio"/>	<input checked="" type="radio"/>	Pasters
<input type="radio"/>	<input checked="" type="radio"/>	Cost and NetProfit view
<input type="radio"/>	<input checked="" type="radio"/>	Invoice stock changing checkbox
<input type="radio"/>	<input checked="" type="radio"/>	Stock level column
<input type="radio"/>	<input checked="" type="radio"/>	Unbound attachments

☒ P,S,T

Survey types ?

Allowed payment modes ?

If empty, everything is allowed. List of codes with commas. If even one code is filled, only that code is allowed.

Expenses

How do I see expense sums by different currencies?

If an expense has rows in several different currencies and/or different expenses have expenses in different currencies and want to view the report by currencies. For example expense:

Currency: EUR Vat Total: 0.00 Subtotal: 100.00 Base: 100.00   
Rate: 1 Rate-D: 0.00 To pay: 100.00 Daily allowance to be paid

2 days Agreed daily allowance for one day

NO	Type	Date	Doc NO	Supplier	Supplier name	Account	Object	Project	Description	Quantity	Currency	Rate	Base	Unit price	Subtotal	VATCode	VAT	
1	DAILY_AI					526101			Daily allowance	2	EUR		1	100.0000	50.00	100.00		0

- Create a payment, in agreement with the employee before going on a business trip
- If by agreement with the employee the daily allowances are paid together with the business trip expense, then can create an expense, where all the expenses of the business trip are indicated.
- Expense types can be added to the salary printout, where is marked **Personnel income YES**.

## EXPENSE DUE

## FIXED ASSET

### How can I check if all fixed assets and low value assets cards have been created?

Report purchase invoices - write in the account cell the fixed asset accounts you want in the report (comma-separated list). Choose „show rows“. In the Name/Asset column the rows show the asset numbers, when the asset cards have been created.

Searches only for fixed assets created from the purchase invoice lines.

## How can I get fixed assets as of 31.12.2019?

### Report - Asset list

Write in the time fields **Date** and **Valid** date 31.12.2019. **Valid** is a helpful field that also shows assets written off after the report date.

<< Report - Asset list - Work - Microsoft Edge

Print REPORT

## Why the asset history report does not match the balance sheet

- The **closing checkmark** on the asset cards is intended to „write off“ low value assets, i.e. to remove them from the reports. The fixed asset cards should not be closed, when fixed assets are written off. If you close the card, it will no longer appear in the **Asset history** and **Asset List** reports, and the reports will not be comparable to the balance sheet.
- Actions in the asset module **changing the financial transactions dates** do not change the dates in the reports and the asset module and the balance sheet data are not comparable.
  - For example changing the depreciation transaction dates / sums
  - or changing the billing / write-off date

## Can the car fringe benefit also be calculated for low value assets?

**Can not.** The car fringe benefit is calculated on the **Asset Depreciation** report and only fixed assets come into that report.

Car fringe benefit can only be calculated for cars on fixed asset cards.

In case the cars do not belong to the company, but is in the company's use on an operating lease or other agreement basis, then a separate fixed asset class for the car fringe benefit should be created under the fixed asset classes.

## Can fixed assets be partially written off on the asset card?

Fixed assets cannot be partially written off on the asset card. If you want to write off a part, then you should write off all and then take into account only the part that remained. On the new fixed asset card, you can partially write off the fixed asset proportionally from the acquisition cost.

### Why does the balance sheet show all the income statement accounts with a plus sign

If the income statement accounts are shown in the balance sheet description, then the income

accounts balances are shown with a + sign and expense account balances with a - sign, i.e. expense accounts balances also appear in the report with a + sign.

## How to grant rights to see only certain account statements

If the user is allowed to see a limited number of accounts, should create a personal Balance Sheet and/or Income Statement description for the user, where can highlight the accounts that are allowed and give the user limited rights:

### 1) System setting

### FINANCE SETTINGS

Fiscal Reports can open Fiscal Ledger with Ledgers own right ☐ no ☒ yes

### 2) User or user group rights

## Change group rights "Accountant assistant" Save

# PAYMENT SHEET

## STATE BALANCE SHEET

### Why the State account does not appear in the balance data

Reason - The state account has not been entered under financial accounts.

State account - the cell is mandatory for this entry to appear in the balance data report. The account number of the state account plan is written here.

See The state balance sheet guide for more details: [Riigi saldoandmik](#)

## MAINTENANCE - CURRENCY RATE CONVERTER

### How to start using the currency converter, if until now the currency recalculation transactions have been made manually

- Create currency recalculation under maintenance with period end date
- Make a manual financial transaction with a minus sign to eliminate the double currency rate sum

Initial data - if the data is in currency, the opening balances should also be entered in the correct currency. If the data is entered as a financial entry, the data in currency should be entered under the second sheet (data in EUR is not entered).

## TAX OFFICE

## TSD Annexes 4,5,6

Annexes 4, 5, 6 data can also be automatically sent to E-MTA together with the TSD salary report.

For this:

1. Set up **Fringe benefit** field to [kontodele](#).

**Fringe benefit** - you can choose which TSD Annex 4,5,6 fringe benefit field the account turnover is related to. It is useful to specify if is wanted the fringe benefit fields to be filled in when submitting the TSD to the Tax and Customs Board.

In front of each fringe benefit option, there is a code that shows which TSD Annex 4, 5 or 6 row exactly the account turnover data goes to.

Create necessary number of accounts to be able to automatically submit TSD annexes. For example, two separate financial accounts should be created for gifts. One up to the established limit and the other for gifts that cost more than the limit.

ERISSOODUSTUS	
4000	(Eluasemekulude täielik või osaline katmine )
4010	(Kindlustusmaksete tasumine, kui selline kohustus ei ole ette nähtud seadusega)
4030	(Isikliku sõiduauto töösõitudeks kasutamise eest hüvitise maksmine üle piirmäära )
4040	(Tööandja sõiduauto kasutada andmine töö-, ameti- või teenistusülesannetega või tööandja ettevõtlusega mitteseotud tegevuseks)
4050	(Tööandja sõiduki või muu vara tasuta või soodushinnaga kasutada andmine töö-, ametivõi teenistusülesannetega või tööandja ettevõtlusega mitteseotud tegevuseks)
4061	(turutingimuste alusel arvatud intressi summa)
4062	(laenulepingus ettenähtud intressimäära järgi arvatud intressi summa)
4081	(osaluse turuhind)
4082	(osaluse realiseerimishind)
4083	(optsoonipreemia)
4091	(rakendatud hind)
4092	(turuhind)
4100	(Loobumine rahalise nõude sissenõudmisest)
4110	(Tasemeõppe ja täienduskoolituse kulude katmine )

2. Check from the nominal ledger that everything is declared

[Nominal ledger](#) report subtotal **By employee benefit** helps to check the TSD annexes data sent to EMTA.

In the financial account, it is possible to determine to which TSD Annex 4, 5 or 6 row the expense on the account should move.

**Subtotal by employee benefit - only the sum**

### 3. Send TSD

- Send **TSD** automatically to the Tax Office.

The data in Annexes 4, 5, 6 are automatically filled in together with the salary data.

As long as the TSD declaration has not been confirmed in the e-Tax Office, can change and correct the data in Directo and resend it.

- Download the TSD file from Direto and upload the appropriate annex one by one to the e-Tax Office.

If it is not recommended to automatically send the TSD to the e-Tax Office, the TSD file can be downloaded from Directo and upload the file to e-Tax Office either at once or separately.

# SALES INVOICE

## How can I change the payment term on a confirmed sales invoice?

It is sometimes necessary to change the payment term on a confirmed sales invoice (for example by parties later agreement, making debt payment schedule, etc). Making changes to the confirmed sales invoice must be under strict control.

The screenshot shows a software interface for a sales invoice. The 'Pay term' field, located in the left-hand section under the 'Date' field, is highlighted with a red rectangle. The value '7' is entered in this field. Other visible fields include 'Invoice' (100201), 'Customer' (1020), 'A&E Office OY', 'Asset', 'Budget', 'Ordered by', 'Survey', 'Date' (01.01.2020), 'Due date' (08.01.2020), 'Trans date' (01.01.2020), 'Cust order', 'Sent' (01.01.2020), 'Comm.' (Training), 'Cust rep', 'Our ref' (Bob Brown), 'Salesman' (BOB), 'Vastutaja', 'Quotation', 'Type' (dropdown), 'Stock', 'Object' (ADMIN.DAVIDD), 'Project' (PROJECT\_2), 'Order no.', 'Credited invoice', 'Status' (dropdown), and a checked 'Update stock' checkbox. The 'Proceeding' status is indicated by a selected radio button.

**User group**, with the right to change the payment terms on a confirmed sales invoice, must have the following rights:

Other - Modification rights

Why credit invoice transactions are not with a minus sign?

In order for the credit invoices financial transactions to have minus signs, turn on the system setting Finance transactions can be negative → YES

### FINANCE SETTINGS

Finance transactions can be negative

☒ no ☒ yes

## Issuing a sales invoice if the customer is subject to VAT in several countries

If one and the same customer is subject to VAT in several countries, a separate customer card should be made for each different VAT register number and VAT country. When making invoices, the payer should always be the „main code“ and the customer - the customer's card with the VAT information of the country to which the goods are delivered.

On both customer cards Multiple VAT zones must have a check mark.

Bank	B/a	Pay term 14	Del term	Del mode	Delivery schedule

VAT zone Domestic	VAT code	Vat reg no EE100615311	Prepayment%	Credit limit	Credit limit balance 0.00
<input checked="" type="checkbox"/> Notice letter	Delivery Stock Delivery	VAT country	Quotation	Special offers	Campaigns
Warns	Auto print No	Destination	Deposit Yes		
Prohibits	Invoice printout	<input checked="" type="checkbox"/> Multiple VAT zones			

## RECEIPT

### 10. Laekumisel - raha tagastamine kliendile

Directost saab otse kliendile raha tagastada. Mugav ekslike laekumiste, ettemaksude, deposiitide tagastamiseks. Arveldusarve, kuhu raha kanda märgitakse kas kreditarvele või kliendikaardile või otse laekumise dokumendile.

Raha tagastuse ekspordi õnnestumiseks :

- Laekumisel peab olema märgitud kliendi IBAN (arveldusarve). Korduvatel tagastustel täidetakse kliendikaardi vastav väli.
- Kliendil peab olema **üherealine miinussummaga** tagastus Summa S väljal
- **SEPA eksport** nupp tekib ainult kinnitamata laekumiselt
- Tasaarveldused peavad olema tehtud ja kinnitatud teise laekumise peal. Juhul kui laekumisele asetatakse nii pluss kui miinussummadega ridu, siis raha tagastamine kliendile vaatab ainult miinussummasid

## SALES LEDGER

## PURCHASE INVOICE

### How to record a capital lease on a purchase invoice

The company purchased fixed assets with a cost of 100,000+VAT. In order to reflect the fixed asset purchase invoice in the purchase module, the following posting must be made:

Valuuta	EUR	KM kokku	20000.00	Summa	200.00	Jagatav summa	Ettemaks	0.00
Kurss	1	Ümardus	0	Tasuda	20200.00	Erinevus	Saldo	20200.00

NR	Tüüp	Konto	Objekt	Projekt	Kasutaja	Sisu	Summa	KMK	KM	Klient	Ar
1		21941	589NGU			Kapitalirendi pikaajaline kohustus	-86667.00	23	0.00		
2		21151	589NGU			Pikaajaliste kapitalirentide tagasimaksed	-13333.00	23	0.00		
3		10921	589NGU			Masinad ja seadmed (soetusmaksumus)	100000.00	4	20000.00		
4		50643	589NGU			Lepingutasu	200.00	23	0.00		
5											

Liability accounts are entered with a minus for the financial entry to be correct. In the example, the capital lease obligation of the current year is also immediately reflected in the account „Repayments of long-term capital leases in the following periods“ and „Long-term capital lease liability“ sum reduced by this. The VAT code has been added to the fixed assets account. When the invoice is confirmed, the following financial transaction is created:

Nr	Konto	Objektid	Projekt	Sisu	Deebet	Kreedit	KM kood
	> Otsi	> Otsi	> Otsi	> Otsi	> Otsi	> Otsi	> Otsi

After confirming the purchase invoice, a new fixed asset card can be created from the purchase invoice, under the third tab of the rows.

## Confirming the prepayment on the purchase invoice gives an error message

A prepayment to the supplier is requested on the purchase invoice. The payment term is prepayment and the item in line is E2, confirming gives error:

Confirm process remarks

Row 1 PRE.1 prepayment with same SN is used multiple times

[Back](#)

- Set the default quantity to 1 on the purchase prepayment item card. Then the error will not appear.

## If the company is not liable for VAT - how to enter purchase invoices

If the company is not liable for VAT, it is possible to enter purchase invoices.

### 1. Put cost sum including VAT into the cost and VAT 0

- Create VAT code

Finance Settings > VAT codes > 58

[Back](#) [New](#) [Copy](#) [Delete](#) [Save](#) Status: View [View changelog](#)

### Input VAT 20% (expense)

All monthly payments to the Tax Office - VAT, TSD taxes - can be made on the same principles. Add the tax declaration as an attachment to the purchase invoice, then it is easy to check the payments later.

The same principle can be used to make loan payments and interest payments, it is necessary to create an off-balance subsidiary account „Loans and interest - subsidiary account“ or create a separate subsidiary account for each type of payment - depending on your needs.

## Can the payment schedule be copied from Excel to Directo?

Read the manual here: [Maksegraafik](#)

## The purchase invoice displays a message "the purchase prepayment is smaller than the supplier's prepayment" xxx.00

In our example the purchase invoice displays a message „the purchase prepayment is smaller than the supplier's prepayment 2160.00. Actually the supplier does not have a prepayment. In order to correct it, you need to find the reason, why there is a message that the supplier has a prepayment, even though the purchase invoice does not have the prepayment. To find the reason:

- Calculate the report **Purchase prepayments**

If there is a supplier in this report whose purchase invoices have such a mistake, then it is a prepayment in EEKs

## Payment - why is the sum with a minus sign payable to the supplier red

If the supplier has credit invoices, the sum with a minus sign is coloured red so that negative payments are not unnoticed.

## Company name on files sent to the bank and the Tax Office

If the accountant have several companies at the same time in Directo, it was difficult to understand exactly which file to upload to the bank or the Tax Office.

We have added the company short name to the file names, which appears in the Directo header

The short name can always be changed in the system settings

The payment file sent to the bank now looks like this:

PAYMENTS\_210060\_MINU\_FIRMA.xml

The company short name is attached to the following documents files:

- VAT declaration
- TSD report
- Payments
- Salary payments
- Expense due

## Why are purchase invoices not added up when creating a payment order from the payment to the bank

- setting in payment fine-tuning **Export does NOT join same supplier payments**
- The purchase invoices have reference numbers, in this case the purchase invoices are never joined
- The supplier's name is spelled differently on the purchase invoice, lines with exactly the same spelling are joined

login.directo.ee/ocra\_directo /or\_tasumine.asp?NUMBER=100083

## Error message when importing payment to the bank - comment too long

If you pay many purchase invoices at once, the purchase invoice numbers will not fit in the comment field. Similarly, the payee cannot find out which purchase invoices have been paid.

If one supplier's purchase invoices are paid, then the xml file puts all one supplier purchase invoices rows together, when importing to the bank and the supplier's purchase invoice numbers are written consecutively in the comment field.

If many purchase invoices are paid at once and the reference numbers have not been used, the purchase invoice numbers will not fit in the comment field and the bank issues a warning that the comment is too long.

Possible solutions:

- use fine-tuning **Export does NOT join same supplier payments**
- create several different payments with less purchase invoices
- use purchase invoice reference numbers
- send to the supplier's accounting a report Purchase - Reports - Payments about payemnts.

## Why can't the payment be confirmed, even though the row has object?

If the object level is mandatory on the account and the payment row has level object, check that in the system settings is indicated

- Finance setting - Payment uses Purchase Invoice object on rows - YES
- Payment settings - Payment uses header object for the Asset Accounts - NO

## Why is it not allowed to use a prepayment in foreign currency?

When using an advance payment in a foreign currency, the exact same currency rate must be used when using it. If you get an error message when saving a payment, it must be observed that USD has been added to the payment, but the currency rate is the day of the payment. There is a difference when making a prepayment and the currency rate must be exactly the same currency rate as on the payment document with which the prepayment was made to the supplier.

The first screenshot shows the 'Tasumised' (Payments) screen in Directo. A red box highlights an error message: "Kinnitamisel tekkinud segadused" (Error occurred during confirmation) and "Tegemist on võrdse konteeringuga ning valuuta USD vahe ei ole null: -36919.76" (It is a matching entry and the USD difference is not zero: -36919.76). The second screenshot shows the 'Tasumine' (Payment) screen for invoice number 22000174. A red box highlights the 'Kurs P' (Rate P) field with the value 0.875902226 and the 'Summa P' (Sum P) field with the value -36919.76. A red arrow points to the 'Summa P' field. Below the table, a red message states: "Kurs ja summa peaks olema täpselt nagu on ettemaksu peal" (Rate and sum should be exactly as on the prepayment).

## Why is there a difference in purchase ledger when using an prepayment on a purchase invoice in foreign currency?

**The error is known and is being corrected** Such a situation can occur if the purchase invoice is in a foreign currency and the sum to be paid is settled with the prepayment directly on the purchase invoice through the Prepayment field. Since the currency rate on the prepayment date and the payment date has been different, a difference in the exchange rate occurs.

**SOLUTION:** If the purchase invoice is in a foreign currency, should be used a payment document to link it to the prepayment.

- Confirm the purchase invoice without using the prepayment
- Create a payment document with the purchase invoice date separately for the minus prepayment with the currency rate that is on the payment document.
- Create a separate payment document for the purchase invoice with the date of the purchase invoice
- Check the account balance of the payment method in the nominal ledger report
- Create a financial transaction and transfer the exchange rate difference to income, expenses

Example

Prepayment

## SUPPLIER

### Automatic

#### How can I add leasing invoices to automation?

The leasing company sends e-invoices where each customer has the same reference number and line explanation. Vehicles could only be identified using the contract number field.

1. Write on the Content field to a separate row „Interest“ and „Instalment“ and fill in the Fields that are filled in on all purchase invoices of the leasing contract if the rules match
2. Write the lease agreement number to a separate row in the Content field and fill in the fields that are filled in differently depending on the rules

## PURCHASE LEDGER

### I delete the purchase invoice, but it is still on the purchase ledger

This situation occurs when the purchase invoice that is deleted has already been paid.

If a paid purchase invoice is deleted, the payment must also be opened and remove the

## VAT

### Posting of VAT accounts

Every month, the VAT payable should be transferred to the taxes prepayment account and once a year make an intermediate transaction, where, for example, on 01.01.202X all VAT accounts are set to zero. So only the sum that has to be paid to the tax office for December on 20.01.202X remains.

- 1) There is no need to reset all VAT accounts on a monthly basis
- 2) Transaction must be made by the 20th of the following month

- D Payment of VAT
- K Tax prepayments

If according to the VAT declaration there is a prepayment to the tax office, the transaction must still be made, but there is a minus sign in front of the sums.

- 3) When transferring money to the tax office is created a transaction

- D Tax prepayments
- K Bank account

4) At the end of the year all VAT account balances are written to zero, except the sum that remains to be paid to the tax office for December 20.01 and which transaction is made on 20.01. Leave the sum in the „VAT payment“ account. If, as of the new year, VAT remains to be paid in advance, then make an account „Prepayments to the tax office“ – prepaid VAT“.

## How to set up reverse sales tax that cannot be reclaimed

- Create a new VAT code
- Create an account - Reverse VAT on purchases - doesn't ask back

### Purchase invoice with reverse VAT, which cannot be refunded

## OTHER FREQUENTLY ASKED QUESTIONS

### Documents do not fit on one page

Make sure that the **Margins** option in the print settings is marked **None**.

## OSS declaration

The OSS declaration is not initially developed in Directo.

To start using OSS, create your own VAT country and VAT code for each OSS country. The customer decides whether to create a separate financial account for each VAT code. Data for the OSS declaration can get from the customer statistics report with the VAT country and VAT code filter.
