How can I change balance in EUR to USD?

If the account should have USD-s, but until now the transactions have been made in EUR-s, then in order to adjust the account, EUR-s must be written off and USD-s must be received.

Example: The account must have 1000 USD on 31.03.2021, but there is 852.88 EUR (which is worth 1000 USD).

- The account still has transactions in EUR-s and the balance has been manually revalued to be correct as of 31.03.2021 exchange rate
- I make a financial transaction to adjust the amounts I transfer USD-s instead of EUR. Enter the sums to correct the currency to the transaction Cur. debit field and currency cell minus EUR-s on the account instead of USD-s.

• If the account has currency that has not been revalued, then currency revaluation transaction should be made first. Then in the future can use Maintenance > Currency rates > Currency rate converter to convert currency rates.

BANK STATEMENTS

Why does the bank statement START BALANCE DIFF sum is shown in red

If there is a red non-zero number in the DIFF cell, it means that the bank start balance for that day and the Directo account start balance are not equal. If the DIFF cell has a number for a long time, look at the previous days bank statements and find a bank statement with a start balance DIFF a zero and start checking from that day.

Start balance block contains information fields

- In fail shows start balance in bank
- Directo shows account start balance in Directo
- **DIFF** shows the bank statement start balance difference

If everything is correct, the DIFFERENT sum will be a 0.00 number in black colour.

Dat	te: 25.08.2022			
	Start balance	Final Balance		
In file:	232 565.81	240 925.42	EUR	
Directo:	232 565.81	240 925.42	EUR	
DIFF.:	0.00	0.00		

If the day's start balance does not equal to the bank start balance statement in Directo, DIFF will show a red number.

										-					-	Action	~		
1											If there is a	sum, th	nen the b	ank dav	N	ot used	~		
2											Start balan				N	ot used	~		
3															N	ot used	~		
4															N	ot used	~		

If the DIFF number is red on the bank statement, it means that the previous day's bank statement final balance is not the same sum in the financial account and in the bank.

- Go to the **previous** day bank statement and check if all rows are covered with transactions.
- Check if all receipts and payments have been confirmed in the **previous** day's bank statement.
- If all the lines have been checked and there is still a difference, look at this account **previous day's** statement in the nominal ledger and check if all the rows are there.

Errors, that may occur

- 1. financial transaction has incorrect account
- 2. payment, receipt, etc. not created
- 3. payment, receipt has been created, but not confirmed
- 4. double payment, receipt has been created
- 5. accidentally have been deleted some bank service financial transaction
- 6. by mistake, the date was changed when making a copy of the bank service transaction

Find the error and fix it. DIFF sum is always 0.00 if everything is correct.

If the bank statement is linked to the wrong document, what to do?

• Remove the wrong link in the row by pressing the red X in the Type column

Not used 🗸	Click	on the red X and	l disconnect	
Currency Sum	Fee	Reference no	Payment No Rule Type	Doc no Account
EUR 🗩 28	50.77	32212691	1075 ADD	Receipt [X] 220286

- Select the document type and create a new link
- Check, if the correct connection was made
- Check account statement
- Mark the bank statement as closed

Can a bank statement be linked to a financial transaction already made?

Financial transactions that are not created directly from a bank statement **cannot** be linked to a bank statement. When checking the bank statement, add Type "Not used" to these bank statement lines. When all actions related to the bank statement have been completed, mark the bank statement as

closed.

I transfer money from one bank account to another, why a double entry occurs?

If money is transferred between your own bank accounts and both bank accounts appear in the bank statement, you must check that only one bank statement has a financial transaction and on the other bank statement is marked "Not used".

Example: **Without a rule** If both bank accounts appear on the bank statement, start with the account statement from which the money was withdrawn

ALL Not used	I Receipt Payment	Transaction Card payment Expense due	Cash Salary payment	Set type for selected Not used	d 🗸	·				
NO Date	Account No	Reg No/ID number Company	Description	Curre	ency Sum	Fee	e Reference no	Payment No Ru	le Type	Doc no Accou

Mark the row "Not used" on the money income bank statement, because the transaction has already been prepared.

ALL Not used	d Receipt Payment	Transaction Card payment Expense due	Cash Salary payment Set ty	pe for selected Not used	Gener	ate: Transaction	
NO Date	Account No	Reg No/ID number Company	Description	Currency Sum	Fee	Reference no	Payment No Rule Type
							Action 🗸
1				eur	200.00		ADD Transaction D
3 30.01.2021	EE8655555221	My own company`	s name Money transfer	EUR	20000.00		Not used 🗸

I transfer money from one bank account to another. I use a bank statement - how should the bank statement rules be created?

2) **Rules: option 1.** If you have a lot of money moving between your bank accounts, you can create bank statement rules, that make transactions themselves.

Create a new rule from the bank statement row (Rule column - Add), where the necessary fields are

filled in:

Add new

CODE			Write the rule code, for example ACCOUNT_6221 (the last 4 digits of the
NAME	My own company's name		bank account)
PAY MODE	Т	>>	
PRIORITY			
Rule conditions			

DIRECTION	Out 🔻	
OTHER PARTY NAME	My own company`s name	
OTHER PARTY ACCOUNT NUMBER	EE86 6221	delete the sum then the rule
SUM	200.00:200.00	delete the sum, then the rule always applies despite the sum
CURRENCY	eur	
DESCRIPTION	Money transfer	

Outcome	If you select "not used", then to the
ТҮРЕ	Transaction vis written "not used" and you do not need to do anything
CUSTOMER	»
SUPPLIER	Write account number. The account
ACCOUNT	10201 is important for the transaction, objects and projects according to
FEE ACCOUNT	» your need.
OBJECT	>
PROJECT	>
VAT CODE	>
EMPLOYEE	>
FINANCE RECIPE	»
REFERENCE	
COMMENT	Payment between your accounts Write if you wish. No need to mark
PAY MODE	»
DETECT CUSTOMER	
DETECT SUPPLIER	

You can always test the rule by saving and if the transaction is not created as you want, you delete it. Open the rule and change until you get the desired result. Save the rule. Save the bank statement again - then transactions that have not been created are created based on the rules.

3) **Rules: option 2.** If you don't want to use the "Not used" rule, you must create a rule for both bank statements, where the account is the bank's suspense account "money transfer", choose yourself

whether to make a balance account or an off-balance account starting with a number 9!.

a) To the bank rule for withdrawing money, add bank's suspense account "money transfer" to the account field, the transaction is created like this

d <<: Finants	- kanne FIN:210355 _{v2}	- Google Chrome				_	
login.dir	ecto.ee/ocra_	/fin_kanne.asp?num	ber=210355%20&tyyp=FI	N&clr1=1&cs	scroll=0&hoiatus	=

On the bank statement, receipts via TREASURY are not placed on the correct customer

If the state board pays for the customers and the receipts are not tied to the invoice, then

- Use an invoice-based reference number
- Make sure that the reference number is indicated on the invoice printout sent to the customer
- When creating a receipt from a bank statement, the reference number is taken into account and the sums received are linked exactly based on the invoice reference number

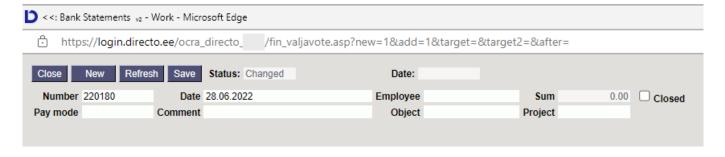

The bank statement has not arrived, how can I add it manually

If for some reason the bank statement has not been automatically received in Directo (technical problem), the bank statement can be added manually.

• Download the required day's bank statement - file format ISO_XML_

If empty, everything is allowed. List of codes with commas. If even one code is filled, only that code is allowed.

Expenses

How do I see expense sums by different currencies?

If an expense has rows in several different currencies and/or different expenses have expenses in different currencies and want to view the report by currencies. For example expense:

- Create a payment, in agreement with the employee before going on a business trip
- If by agreement with the employee the daily allowances are paid together with the business trip expense, then can create an expense, where all the expenses of the business trip are indicated.
- Expense types can be added to the salary printout, where is marked **Personnel income YES**.

EXPENSE DUE

FIXED ASSET

How can I check if all fixed assets and low value assets cards have been created?

Report purchase invoices - write in the account cell the fixed asset accounts you want in the report (comma-separated list). Choose "show rows". In the Name/Asset column the rows show the asset numbers, when the asset cards have been created.

Searches only for fixed assets created from the purchase invoice lines.

How can I get fixed assets as of 31.12.2019?

Report - Asset list

Write in the time fields **Date** and **Valid** date 31.12.2019. **Valid** is a helpful field that also shows assets written off after the report date.

🗅 <<: Report - Asset	list _{va} - Work - Microsoft Edge

Why the asset history report does not match the balance sheet

- The closing checkmark on the asset cards is intended to "write off" low value assets, i.e. to remove them from the reports. The fixed asset cards should not be closed, when fixed assets are written off. If you close the card, it will no longer appear in the Asset history and Asset List reports, and the reports will not be comparable to the balance sheet.
- Actions in the asset module **changing the financial transactions dates** do not change the dates in the reports and the asset module and the balance sheet data are not comparable.
 - $\circ\,$ For example changing the depreciation transaction dates / sums
 - $\circ\,$ or changing the billing / write-off date

Can the car fringe benefit also be calculated for low value assets?

Can not. The car fringe benefit is calculated on the **Asset Depreciation** report and only fixed assets come into that report.

Car fringe benefit can only be calculated for cars on fixed asset cards.

In case the cars do not belong to the company, but is in the company's use on an operating lease or other agreement basis, then a separate fixed asset class for the car fringe benefit should be created under the fixed asset classes.

Can fixed assets be partially written off on the asset card?

Fixed assets cannot be partially written off on the asset card. If you want to write off a part, then you should write off all and then take into account only the part that remained. On the new fixed asset card, you can partially write off the fixed asset proportionally from the acquisition cost.

Why does the balance sheet show all the income statement accounts with a plus sign

If the income statement accounts are shown in the balance sheet description, then the income

accounts balances are shown with a + sign and expense account balances with a - sign, i.e. expense accounts balances also appear in the report with a + sign.

How to grant rigths to see only certain account statements

If the user is allowed to see a limited number of accounts, should create a personal Balance Sheet and/or Income Statement description for the user, where can highlight the accounts that are allowed and give the user limited rights:

1) System setting

nange gi	roup rig	g <mark>hts</mark> "Acc	counta	nt as	sistent"	Sa
ocuments	Reports	Setting	Other			
inance						
Report		Unassigned	Denied	Own	Extended	All
Balance		0	0		0	\odot
Income stater	ment	•	\bigcirc	\bigcirc	\bigcirc	\odot
Finance Statis	tics					•
VAT declar.		•	0	\bigcirc	0	0
Nominal Ledg	ger	0	\bigcirc		\odot	\odot

3) Create a **balance sheet** or **income statement** with only the accounts that the user can see and in the employee cell add a comma-separated list of users who can see this report.

< <: Balance report v3 - Work - Microsoft Edge

https://login.d	lirecto.ee/ocra_directo_	/fin_bilansiaru.asp?new=1&clr1	=1&eimuuda=jah&add=1⌖=&ta	rget2=&after=
Close New	Refresh Save	Status: Changed Missing acco	unts	
Code REPOR	RT Object	Employee BOB	Taxonomy 🗸 🗸	
Description			Comment	
NO Number	Туре	Accounts / Formula Object	ct Text	Class Graph
1 10	1(Result) V	100001+100002	Report accounts	~
2	~			~

4) User can only open a balance sheet or a income statement, where he/she is marked as a user

5) From the **balance sheet** you can open the **general ledger, only one account at a time**.

6) From general ledger report can see all the allowed accounts statements - write a commaseparated list of accounts in the account start field. Alt+A can be used to save under saved reports. Finance Report - Nominal Ledger

PAYMENT SHEET

STATE BALANCE SHEET

Why the State account does not appear in the balance data

Reason - The state account has not been entered under financial accounts. State account - the cell is mandatory for this entry to appear in the balance data report. The account number of the state account plan is written here.

See The state balance sheet guide for more details: Riigi saldoandmik

MAINTENANCE - CURRENCY RATE CONVERTER

How to start using the currency converter, if until now the currency recalculation transactions have been made manually

- Create currency recalculation under maintenance with period end date
- Make a manual financial transaction with a minus sign to eliminate the double currency rate sum

Initial data - if the data is in currency, the opening balances should also be entered in the correct currency. If the data is entered as a financial entry, the data in currency should be entered under the second sheet (data in EUR is not entered).

TAX OFFICE

TSD Annexes 4,5,6

Annexes 4, 5, 6 data can also be automatically sent to E-MTA together with the TSD salary report.

For this:

1. Set up Fringe benefit field to kontodele.

Fringe benefit - you can choose which TSD Annex 4,5,6 fringe benefit field the account turnover is related to. It is useful to specify if is wanted the fringe benefit fields to be filled in when submitting the TSD to the Tax and Customs Board.

In front of each fringe benefit option, there is a code that shows which TSD Annex 4, 5 or 6 row exactly the account turnover data goes to.

Create necessary number of accounts to be able to automatically submit TSD annexes. For example, two separate financial accounts should be created for gifts. One up to the established limit and the other for gifts that cost more than the limit.

ERISOODUSTUS	✓
STATISTIKA	
	4000 (Eluasemekulude täielik või osaline katmine)
KEHTIV ALATES	4010 (Kindlustusmaksete tasumine, kui selline kohustus ei ole ette nähtud seadusega)
KONTOL ON NÕUTUD	4030 (Isikliku sõiduauto töösõitudeks kasutamise eest hüvitise maksmine üle piirmäära)
	4040 (Tööandja sõiduauto kasutada andmine töö-, ameti- või teenistusülesannetega või tööandja ettevõtlusega mitteseotud tegevuseks)
	4050 (Tööandja sõiduki või muu vara tasuta või soodushinnaga kasutada andmine töö-, ametivõi teenistusülesannetega või tööandja ettevõtlusega mitteseotud tegevusek
	4061 (turutingimuste alusel arvutatud intressi summa)
	4062 (laenulepingus ettenähtud intressimäära järgi arvutatud intressi summa)
KOHUSTUSLIK	4081 (osaluse turuhind)
	4082 (osaluse realiseerimishind)
	4083 (optsioonipreemia)
	4091 (rakendatud hind)
	4092 (turuhind)
	4100 (Loobumine rahalise nõude sissenõudmisest)
	4110 (Tasemeõppe ja täienduskoolituse kulude katmine)

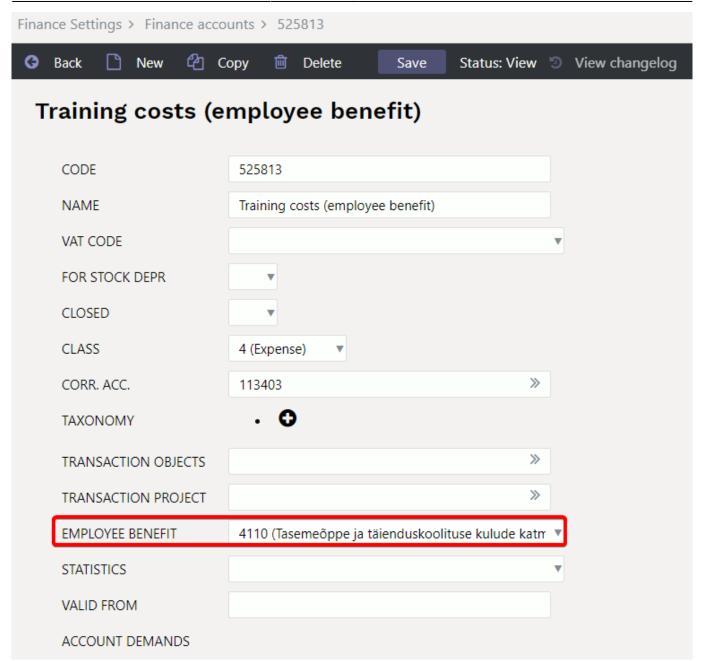

2. Check from the nominal ledger that everything is declared

Nominal ledger report <u>subtotal</u> **By employee benefit** helps to check the TSD annexes data sent to EMTA.

In the financial account, it is possible to determine to which TSD Annex 4, 5 or 6 row the expense on the account should move.

25/53

Subtotal by employee benefit - by transaction

3. Send TSD

• Send TSD automatically to the Tax Office.

The data in Annexes 4, 5, 6 are automatically filled in together with the salary data.

As long as the TSD declaration has not been confirmed in the e-Tax Office, can change and correct the data in Directo and resend it.

• Download the TSD file from Direto and upload the appropriate annex one by one to the e-Tax Office.

If it is not recommended to automatically send the TSD to the e-Tax Office, the TSD file can be downloaded from Directo and upload the file to e-Tax Office either at once or separately.

How can I change the payment term on a confirmed sales invoice?

It is sometimes necessary to change the payment term on a confirmed sales invoice (for example by parties later agreement, making debt payment schedule, etc). Making changes to the confirmed sales invoice must be under strict control.

Issuing a sales invoice if the customer is subject to VAT in several countries

If one and the same customer is subject to VAT in several countries, a separate customer card should be made for each different VAT register number and VAT country. When making invoices, the payer should always be the "main code" and the customer - the customer's card with the VAT information of the country to which the goods are delivered.

On both customer cards Multiple VAT zones must have a check mark.

RECEIPT

10. Laekumisel - raha tagastamine kliendile

Directost saab otse kliendile raha tagastada. Mugav ekslike laekumiste, ettemaksude, deposiitide tagastamisek. Arveldusarve, kuhu raha kanda märgitakse kas kreeditarvele või kliendikaardile või otse laekumise dokumendile.

Raha tagastuse ekspordi õnnestumiseks :

- Laekumisel peab olema märgitud kliendi IBAN (arveldusarve). Korduvatel tagastustel täidetakse kliendikaardi vastav väli.
- Kliendil peab olema üherealine miinussummaga tagastus Summa S väljal
- SEPA eksport nupp tekib ainult kinnitamata laekumiselt
- Tasaarveldused peavad olema tehtud ja kinnitatud teise laekumise peal. Juhul kui laekumisele asetatakse nii pluss kui miinusssummadega ridu, siis raha tagastamine kliendile vaatab ainult miinussummasid

PURCHASE INVOICE

How to record a capital lease on a purchase invoice

The company purchased fixed assets with a cost of 100,000+VAT. In order to reflect the fixed asset purchase invoice in the purchase module, the following posting must be made:

Valuuta EU	IR	KM kokku	20000.00 Summa		200.00 Jagatav summa	Ette	maks		0.00	
Kurss		1 Ümardus	0 Tasuda		20200.00 Erinevus		Saldo	20	200.00	
NRTüüp	Konto	Objekt	Projekt	Kasutaja	Sisu	Summa	кмк	KM	Klient	A
1	21941	589NGU			Kapitalirendi pikaajaline kohustus	-86667.00	23	0.00		
2	21151	589NGU			Pikaajaliste kapitalirentide tagasimaks	ed -13333.00	23	0.00		
3	10921	589NGU			Masinad ja seadmed (soetusmaksum	use 100000.00) 4	20000.00		
4	50643	589NGU			Lepingutasu	200.00	23	0.00		
5										

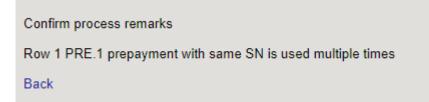

Liability accounts are entered with a minus for the financial entry to be correct. In the example, the capital lease obligation of the current year is also immediately reflected in the account "Repayments of long-term capital leases in the following periods" and "Long-term capital lease liability" sum reduced by this. The VAT code has been added to the fixed assets account. When the invoice is confirmed, the following financial transaction is created:

🗆 Nr 🔿	Konto 🍡 🎤	Objektid	ريكي ا	Proje	ekt	ç	Sisu	Ļ	Deebet	J,	Kr	eedit 🦯 🎤	κN	1 kood	Ļ
	> Otsi	> Otsi		> 0	Otsi		> Otsi		> Otsi		>	Otsi	>	Otsi	
1	10617	589NGU					Põhivara sisendkäibemaks			20000.00			4		
2	21311						Hankijatele tasumata arved					20200.00			
3	21941	589NGU					Kapitalirendi pikaajaline kohustus			-86667.00			23		
4	21151	589NGU					Pikaajaliste kapitalirentide tagasimaksed järgmis	i		-13333.00			23		
5	10921	589NGU					Masinad ja seadmed (soetusmaksumuses)			100000.00			4		
6	50643	589NGU					Lepingutasu			200.00			23		
7															

After confirming the purchase invoice, a new fixed asset card can be created from the purchase invoice, under the third tab of the rows.

Confirming the prepayment on the purchase invoice gives an error message

A prepayment to the supplier is requested on the purchase invoice. The payment term is prepayment and the item in line is E2, confirming gives error:

• Set the default quantity to 1 on the purchase prepayment item card. Then the error will not appear.

If the company is not liable for VAT - how to enter purchase invoices

If the company is not liable for VAT, it is possible to enter purchase invoices.

1. Put cost sum including VAT into the cost and VAT 0

All monthly payments to the Tax Office - VAT, TSD taxes - can be made on the same principles. Add the tax declaration as an attachment to the purchase invoice, then it is easy to check the payments later.

The same principle can be used to make loan payments and interest payments, it is necessary to create an off-balance subsidiary account "Loans and interest - subsidiary account" or create a separate subsidiary account for each type of payment - depending on your needs.

Can the payment schedule be copied from Excel to Directo?

Read the manual here: Maksegraafik

The purchase invoice displays a message "the purchase prepayment is smaller than the supplier's prepayment" xxx.00

In our example the purchase invoice displays a message "the purchase prepayment is smaller than the supplier's prepayment 2160.00. Actually the supplier does not have a prepayment. In order to correct it, you need to find the reason, why there is a message that the supplier has a prepayment, even though the purchase invoice does not have the prepayment. To find the reason:

• Calculate the report Purchase prepayments

If there is a supplier in this report whose purchase invoices have such a mistake, then it is a prepayment in EEKs

Payment - why is the sum with a minus sign payable to the supplier red

If the supplier has credit invoices, the sum with a minus sign is coloured red so that negative payments are not unnoticed.

Company name on files sent to the bank and the Tax Office

If the accountant have several companies at the same time in Directo, it was difficult to understand exactly which file to upload to the bank or the Tax Office.

We have added the company short name to the file names, which appears in the Directo header

MINU FIRMA Directo	Õ	nne Valem 💙	Keel: va	ikimisi ~ Teema: H	lall ja Kuldne \vee 🔅 S	eadistused
Otsi	۹	Peamenüü Kasutaja	menüü Näidikud Kausta	ad Foorum		
Sisseloginud kasutajad						
Viimati avatud dokumendid		Üldine dokumendid	Raamat DOKUMENDID	Personal dokumendid	Müük dokumendid	Ost dokumendid

The short name can always be changed in the system settings

Süsteemi seadetest (1)		
ÜLDISED SEADISTUSED		
Firma lühikood, akende päises paistab	MINU FIRMA	0
	Salvesta	

The payment file sent to the bank now looks like this:

]	PAYMENTS.	210060	_MINU_	FIRMA_	.xml
---	-----------	--------	--------	--------	------

The company short name is attached to the following documents files:

- VAT declaration
- TSD report
- Payments
- Salary payments
- Expense due

Why are purchase invoices not added up when creating a payment order from the payment to the bank

- setting in payment fine-tuning Export does NOT join same supplier payments
- The purchase invoices have reference numbers, in this case the purchase invoices are never joined
- The supplier's name is spelled differently on the purchase invoice, lines with exactly the same spelling are joined

Error message when importing payment to the bank - comment too long

If you pay many purchase invoices at once, the purchase invoice numbers will not fit in the comment field. Similarly, the payee cannot find out which purchase invoices have been paid.

If one supplier's purchase invoices are paid, then the xml file puts all one supplier purchase invoices

rows together, when importing to the bank and the supplier's purchase invoice numbers are written consecutively in the comment field.

If many purchase invoices are paid at once and the reference numbers have not been used, the purchase invoice numbers will not fit in the comment field and the bank issues a warning that the comment is too long.

Possible solutions:

- use fine-tuning Export does NOT join same supplier payments
- create several different payments with less purchase invoices
- use purchase invoice reference numbers
- send to the supplier`s accounting a report Purchase Reports Payments about payemnts.

Why can't the payment be confirmed, even though the row has object?

If the object level is mandatory on the account and the payment row has level object, check that in the system settings is indicated

- Finance setting Payment uses Purchase Invoice object on rows YES
- Payment settings Payment uses header object for the Asset Accounts NO

Why is it not allowed to use a prepayment in foreign currency?

When using an advance payment in a foreign currency, the exact same currency rate must be used when using it. If you get an error message when saving a payment, it must be observed that USD has been added to the payment, but the currency rate is the day of the payment. There is a difference when making a prepayment and the currency rate must be exactly the same currency rate as on the payment document with which the prepayment was made to the supplier.

Why is there a difference in purchase ledger when using an prepayment on a purchase invoice in foreign currency?

The error is known and is being corrected Such a situation can occur if the purchase invoice is in a foreign currency and the sum to be paid is settled with the prepayment directly on the purchase invoice through the Prepayment field. Since the currency rate on the prepayment date and the payment date has been different, a difference in the exchange rate occurs.

SOLUTION: If the purchase invoice is in a foreign currency, should be used a payment document to link it to the prepayment.

- Confirm the purchase invoice without using the prepayment
- Create a payment document with the purchase invoice date separately for the minus prepayment with the currency rate that is on the payment document.
- Create a separate payment document for the purchase invoice with the date of the purchase invoice
- Check the account balance of the payment method in the nominal ledger report
- Create a financial transaction and transfer the exchange rate difference to income, expenses

Example

SUPPLIER

Automatic

How can I add leasing invoices to automation?

The leasing company sends e-invoices where each customer has the same reference number and line explanation. Vehicles could only be identified using the contract number field.

- 1. Write on the Content field to a separate row "Interest" and "Instalment" and fill in the Fields that are filled in on all purchase invoices of the leasing contract if the rules match
- 2. Write the lease agreement number to a separate row in the Content field and fill in the fields that are filled in differently depending on the rules

PURCHASE LEDGER

I delete the purchase invoice, but it is still on the purchase ledger

This situation occurs when the purchase invoice that is deleted has already been paid.

If a paid purchase invoice is deleted, the payment must also be opened and remove the

VAT

Posting of VAT accounts

Every month, the VAT payable should be transferred to the taxes prepayment account and once a year make an intermediate transaction, where, for example, on 01.01.202X all VAT accounts are set to zero. So only the sum that has to be paid to the tax office for December on 20.01.202X remains.

1)There is no need to reset all VAT accounts on a monthly basis 2)Transaction must be made by the 20th of the following month

- D Payment of VAT
- K Tax prepayments

If according to the VAT declaration there is a prepayment to the tax office, the transaction must still be made, but there is a minus sign in front of the sums.

3) When transferring money to the tax office is created a transaction

- D Tax prepayments
- K Bank account

4) At the end of the year all VAT account balances are written to zero, except the sum that remains to be paid to the tax office for December 20.01 and which transaction is made on 20.01. Leave the sum in the "VAT payment" account. If, as of the new year, VAT remains to be paid in advance, then make an account "Prepayments to the tax office" – prepaid VAT".

How to set up reverse sales tax that cannot be reclaimed

- Create a new VAT code
- Create an account Reverse VAT on purchases doesn't ask back

Purchase invoice with reverse VAT, which cannot be refunded

Group - I would like to view the data of the consolidated company in a different currency in the group database

If we want to check whether the data of the consolidated company is the same as in the consolidated base, it is easy if the currency is the same. Select this company in the group report and look at the profit and loss statement numbers.

Documents do not fit on one page

Make sure that the **Margins** option in the print settings is marked **None**.

OSS declaration

The OSS declaration is not initially developed in Directo.

To start using OSS, create your own VAT country and VAT code for each OSS country. The customer decides whether to create a separate financial account for each VAT code. Data for the OSS declaration can get from the customer statistics report with the VAT country and VAT code filter.
