Responses and error codes 3

Result codes 3

Responses and error codes

The response is XML; the root element <results> contains one <Result> per document.

```
<results>
  <Result Type="0" Desc="OK" docid="100034" doctype="ORDER"
submit="Orders"/>
</results>
```

Attribute	Meaning
Type	0 = success; other = error
Desc	Description
docid	Number of the created/updated document
doctype / submit	Document type / submit type

Put = create or update. A response is always returned; on failure, retry after >=60 s.

Result codes

Type	Description
0	Created/Updated/Confirmed
5	Unauthorized
