Directo manuste hoiustamine Google Drive'is

Sobiv Google konto

Google Drive'i sidumine Directoga lubab ettevõttel hoida kõikide dokumentide manuseid ettevõtte enda loodud Google Drive pilvekeskkonnas, mis praegusel hetkel võrdub tasuta 15Gb vaba ruumiga.

Kõik dokumendid, mis tekkivad manustena mujalt, kui kasutaja enda poolt manustamise hetkel (näiteks liideste kaudu) sünkroniseeritakse taustal Drive-i. Kasutajal peab olema kehtiv ja aktiivne Google konto.

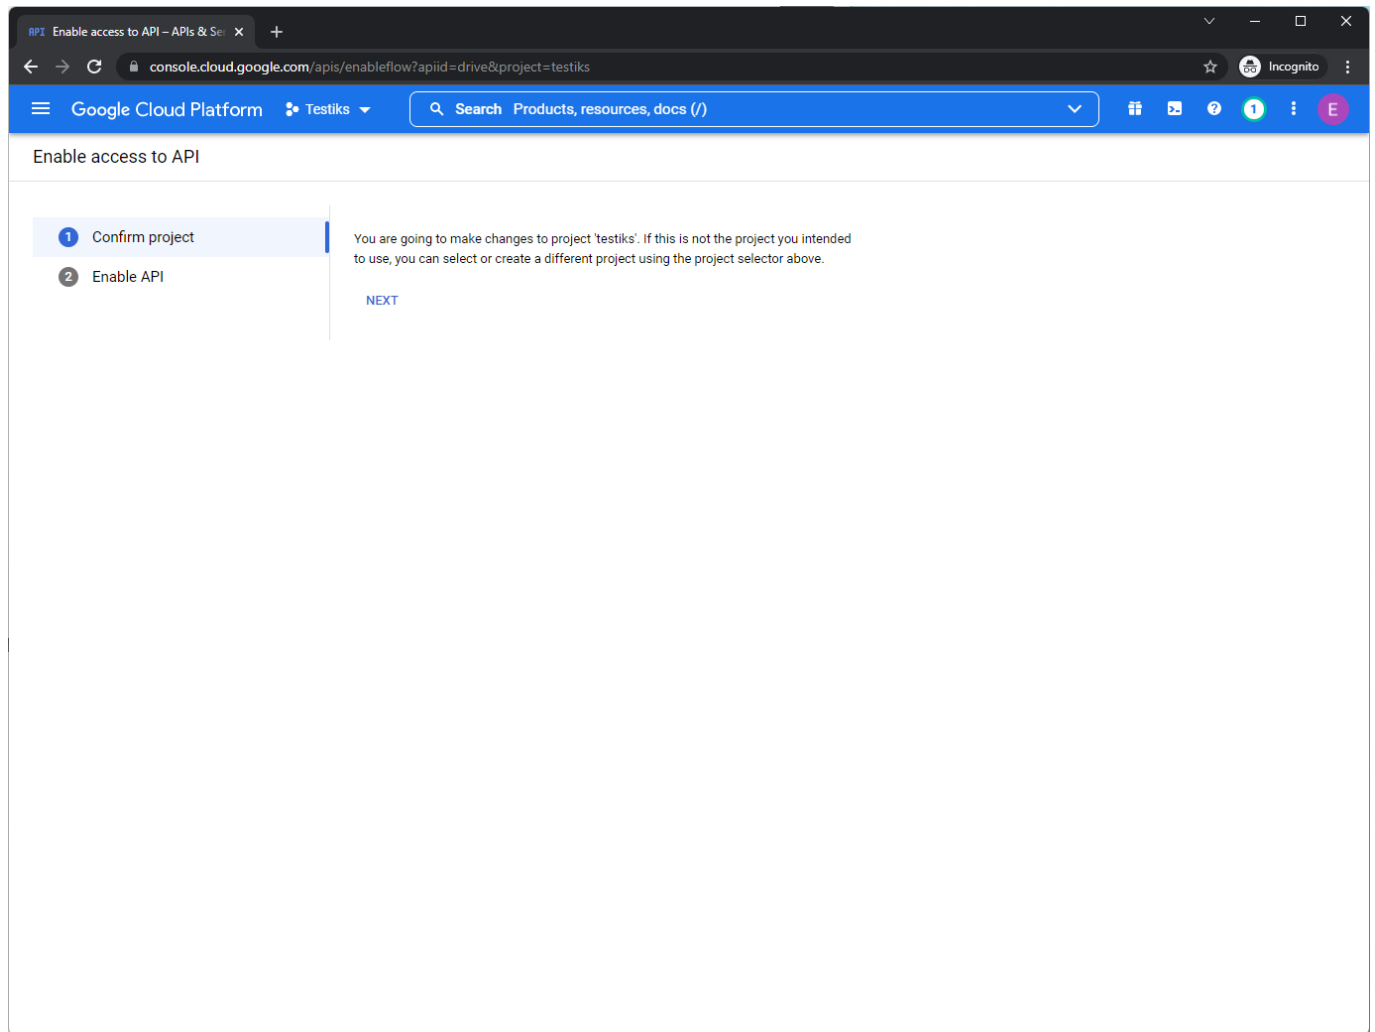

Ei tööta Google Apps for Work/Business/GSuite jms. Peab olema tavaline Gmail konto.

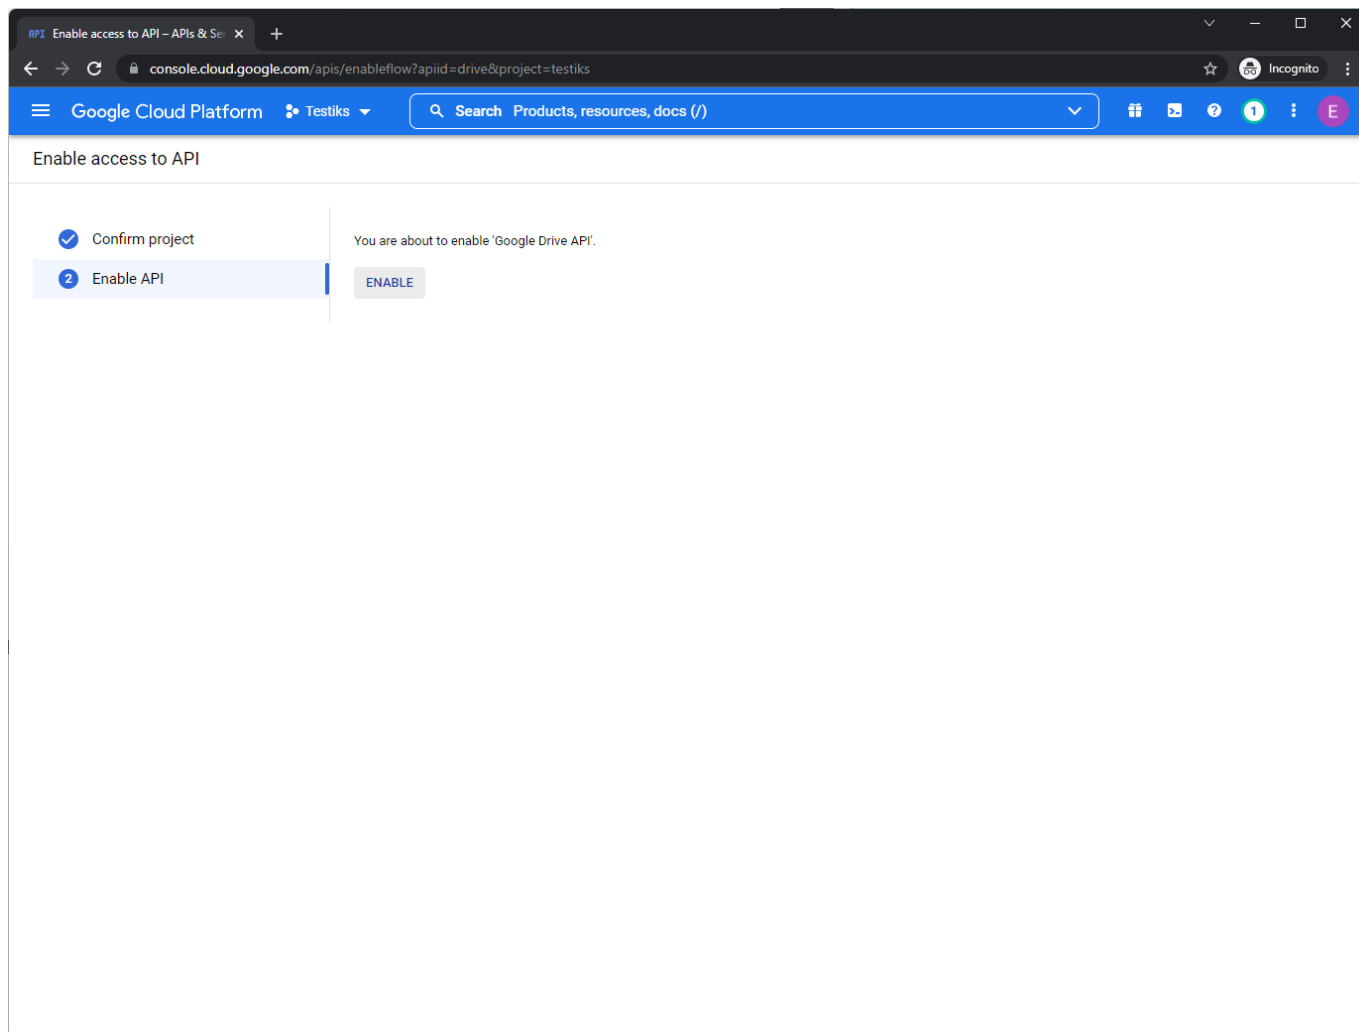

Uue konto saab luua <https://accounts.google.com/signup>.

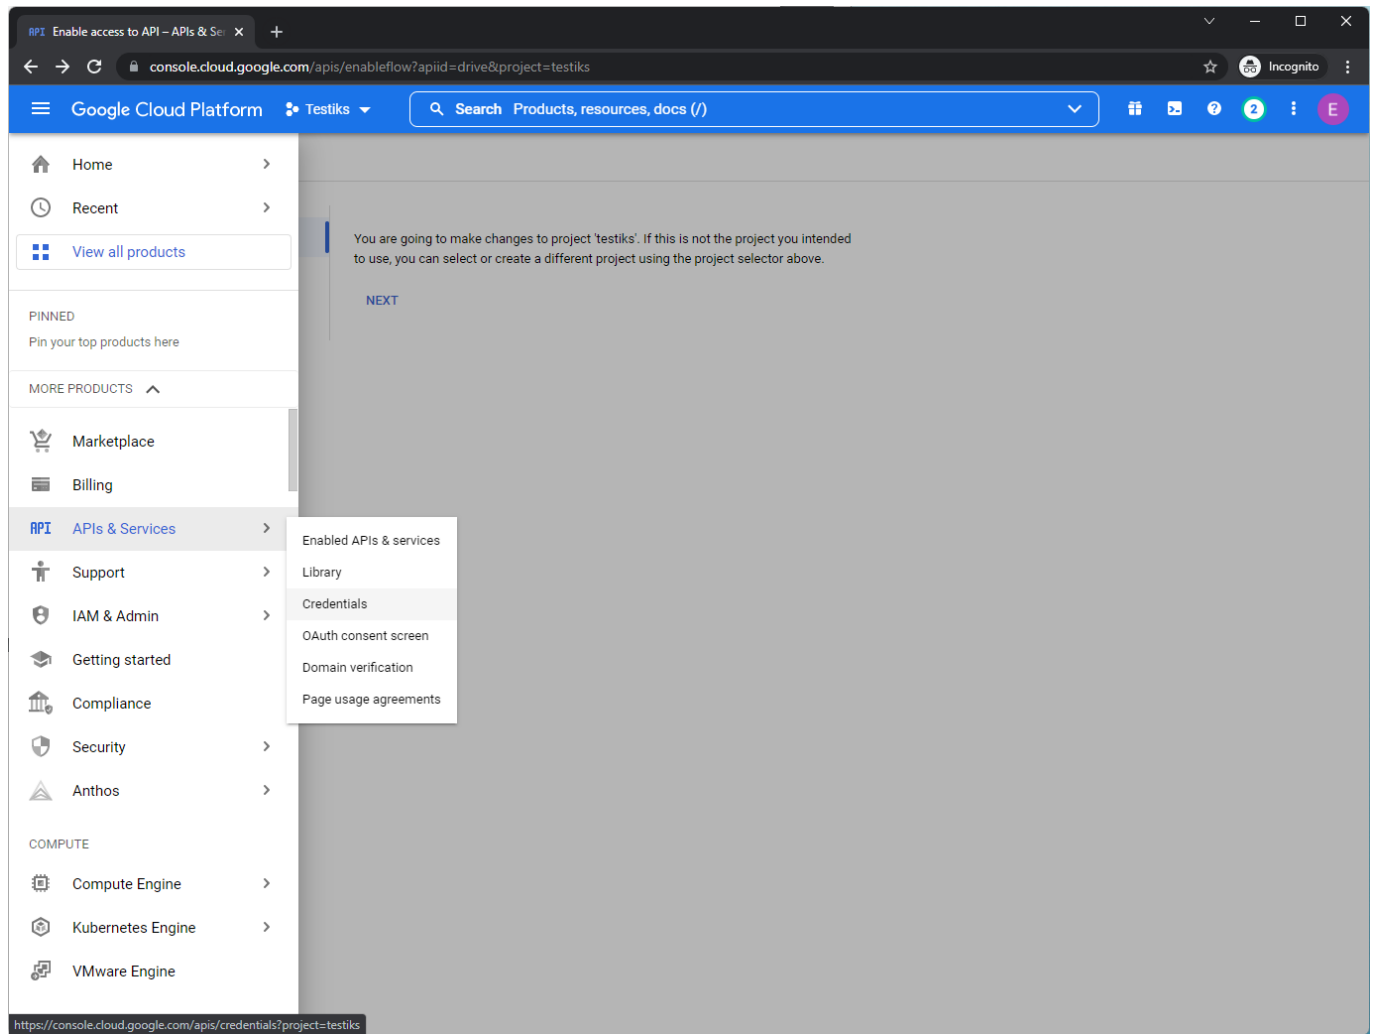

Kuna Google täiendab ja arendab oma teenuseid, siis Google teenused võivad erineda antud juhendis kirjutatust. Palun loe Google dokumentatsiooni kõige värskema info saamiseks! *Kui märkad erinevusi siis palun võta meiega ühendust. ===== Google rakenduse loomine ja seadistamine ===== Veenduge, et olete sisse logitud kontoga mida soovite Directoga sidumiseks kasutada (nt. minnes gmail.com ja sealt sisse logida). Kõik manused tekivad sisse logitud konto Google Drive keskkonda. Kõige lihtsam on kasutada lehitseja „incognito“ võimalust mis avatakse seisundis kus pole ühtegi aktiivset sessiooni seega järgmisele lingile vajutades küsitakse Teie käest millise kontoga Te soovite sisse logida. 1. Minge järgmisele lehele <https://console.cloud.google.com/flows/enableapi?apiid=drive> ja vajutage nupule „Next“.*

2. Järgmisel lehel vajutage nupule „Enable“.

3. Järgmisena avage vasakul üleval nurgas olev navigatsiooni menüü ja valige sealt „API's & Services → Credentials“.

4. Vajutage nupule „Configure Consent screen“.

API Credentials – APIs & Services – Testiks

Remember to configure the OAuth consent screen with information about your application. [CONFIGURE CONSENT SCREEN](#)

API Keys

<input type="checkbox"/>	Name	Creation date ↓	Restrictions	Key	Actions
No API keys to display					

OAuth 2.0 Client IDs

<input type="checkbox"/>	Name	Creation date ↓	Type	Client ID	Actions
No OAuth clients to display					

Service Accounts [Manage service accounts](#)

<input type="checkbox"/>	Email	Name ↑	Actions
No service accounts to display			

5. Täitke ees olev vorm nagu pildil näidatud ja vajutage nupule „Create“.

The screenshot shows the Google Cloud Platform console interface. The top navigation bar includes the Google Cloud Platform logo, a search bar, and a user profile icon. The left sidebar contains the 'APIs & Services' menu, with 'OAuth consent screen' highlighted. The main content area is titled 'OAuth consent screen' and contains the following information:

- Choose how you want to configure and register your app, including your target users. You can only associate one app with your project.**
- User Type**
 - ☐ **Internal** ⓘ
Only available to users within your organization. You will not need to submit your app for verification. [Learn more about user type](#)
 - ☒ **External** ⓘ
Available to any test user with a Google Account. Your app will start in testing mode and will only be available to users you add to the list of test users. Once your app is ready to push to production, you may need to verify your app. [Learn more about user type](#)
- CREATE** button
- [Let us know what you think about our OAuth experience](#)

The right sidebar, titled 'Learn', contains a list of links for further information:

- Google OAuth consent screen
- What is the OAuth consent screen?
- What are OAuth consent scopes?
- What are sensitive API scopes?
- What are restricted API scopes?
- The app registration process
- What information do I need?
- Will my app need to be verified by Google?
- What if I don't verify my app?
- How long does the verification process take?
- How many users can use my app?
- Domain verification
- What else should I review?

6. Täitke väljad kasutades oma enda kontrolli all olevat emaili ja vajutage all olevate „Save and Continue“ nuppu.

1 OAuth consent screen — 2 Scopes — 3 Test users — 4 Summary

App information

This shows in the consent screen, and helps end users know who you are and contact you

App name *

Directo Google Drive

The name of the app asking for consent

User support email *

@gmail.com

For users to contact you with questions about their consent

App logo

BROWSE

Upload an image, not larger than 1MB on the consent screen that will help users recognize your app. Allowed image formats are JPG, PNG, and BMP. Logos should be square and 120px by 120px for the best results.

App domain

To protect you and your users, Google only allows apps using OAuth to use Authorized Domains. The following information will be shown to your users on the consent screen.

Application home page

Provide users a link to your home page

Application privacy policy link

Provide users a link to your public privacy policy

Application terms of service link

Provide users a link to your public terms of service

Authorized domains ?

When a domain is used on the consent screen or in an OAuth client's configuration, it must be pre-registered here. If your app needs to go through verification, please go to the [Google Search Console](#) to check if your domains are authorized. [Learn more](#) about the authorized domain limit.

+ ADD DOMAIN

Developer contact information

Email addresses *

@gmail.com

These email addresses are for Google to notify you about any changes to your project.

SAVE AND CONTINUE CANCEL

7. Vajutage nupule „Add or remove scopes“. Avanenud vaates olevasse „Filter“ välja kirjutage „drive“ ja markeerige otsinguvastete hulgast pildil näidatud valik.

Kui muudatud on tehtud vajutage „Update“.

8. Järgmise lehe võib vahele jätta vajutades „Save and Continue“.

The screenshot shows the Google Cloud Platform console interface. The left sidebar contains the 'APIs & Services' menu with options like 'Enabled APIs & services', 'Library', 'Credentials', 'OAuth consent screen', 'Domain verification', and 'Page usage agreements'. The main content area is titled 'Edit app registration' and shows a progress bar with four steps: 'OAuth consent screen', 'Scopes', 'Test users' (current step), and 'Summary'. Below the progress bar, the 'Test users' section explains that while the publishing status is 'Testing', only test users can access the app, with a user cap of 100. A '+ ADD USERS' button is present. Below this is a filter section with the text 'Filter Enter property name or value' and a search input field. The search results show 'User information' and 'No rows to display'. At the bottom, there are 'SAVE AND CONTINUE' and 'CANCEL' buttons.

9. Sellel lehel näidatakse Teile ülevaadet. Vajutage nupule „Back to dashboard“.

The screenshot shows the Google Cloud Platform console interface. The left sidebar contains the 'APIs & Services' menu with options like 'Enabled APIs & services', 'Library', 'Credentials', 'OAuth consent screen' (selected), 'Domain verification', and 'Page usage agreements'. The main content area is titled 'Edit app registration' and displays the 'OAuth consent screen' configuration for an application named 'Directo Google Drive'. The configuration includes fields for 'User type' (External), 'App name', 'Support email' (redacted), 'App logo' (Not provided), 'Application homepage link' (Not provided), 'Application privacy policy link' (Not provided), 'Application terms of service link' (Not provided), 'Authorized domains' (Not provided), and 'Contact email addresses' (redacted). Below these fields is a table for 'Scopes' with one entry: 'Google Drive API' with scope '.../auth/drive.file' and description 'See, edit, create, and delete only the specific Google Drive files you use with this app'. At the bottom, there is a 'Test users' section showing 0 users and a 'Filter' input field. A 'BACK TO DASHBOARD' button is located at the bottom left of the main content area.

10. Aplikatsiooni avalikustamiseks vajutage nupule „Publish app“.

The screenshot shows the Google Cloud Platform console for the 'Testiks' project. The left sidebar lists 'APIs & Services' with sub-items: 'Enabled APIs & services', 'Library', 'Credentials', 'OAuth consent screen' (highlighted), 'Domain verification', and 'Page usage agreements'. The main content area is titled 'OAuth consent screen' and shows the configuration for 'Directo Google Drive'. The 'Publishing status' is set to 'Testing', and the 'PUBLISH APP' button is highlighted with a green box. The 'User type' is set to 'External'. The 'OAuth user cap' is 100, and the 'Test users' section shows 0 users. The 'OAuth rate limits' section shows a token grant rate of 10,000 grants per day.

==== Google rakenduse võtmete loomine ==== Järgmisena on vaja luua võtmed mida Directo hakkab kasutama Teie Google rakendusega suhtlemiseks. Selleks navigeerige vasakul üleval ääres oleva menüü kaudu uuesti „API's & services → Credentials“. 1. Vajutage päises olevale nupule „Create credentials → OAuth Client ID“.

2. Valige rippmenüüst „Web Application“.

3. Järgmisena täitke pildil punaselt markeeritud väljad täpselt nii nagu näidatud ja vajutage nuppu „Create“.

APIs & Services

Create OAuth client ID

A client ID is used to identify a single app to Google's OAuth servers. If your app runs on multiple platforms, each will need its own client ID. See [Setting up OAuth 2.0](#) for more information. [Learn more](#) about OAuth client types.

Application type *
Web application

Name *
Directo Google Drive

The name of your OAuth 2.0 client. This name is only used to identify the client in the console and will not be shown to end users.

i The domains of the URIs you add below will be automatically added to your [OAuth consent screen](#) as [authorized domains](#).

Authorized JavaScript origins **i**

For use with requests from a browser

URIs *

https://login.directo.ee

+ ADD URI

Authorized redirect URIs **i**

For use with requests from a web server

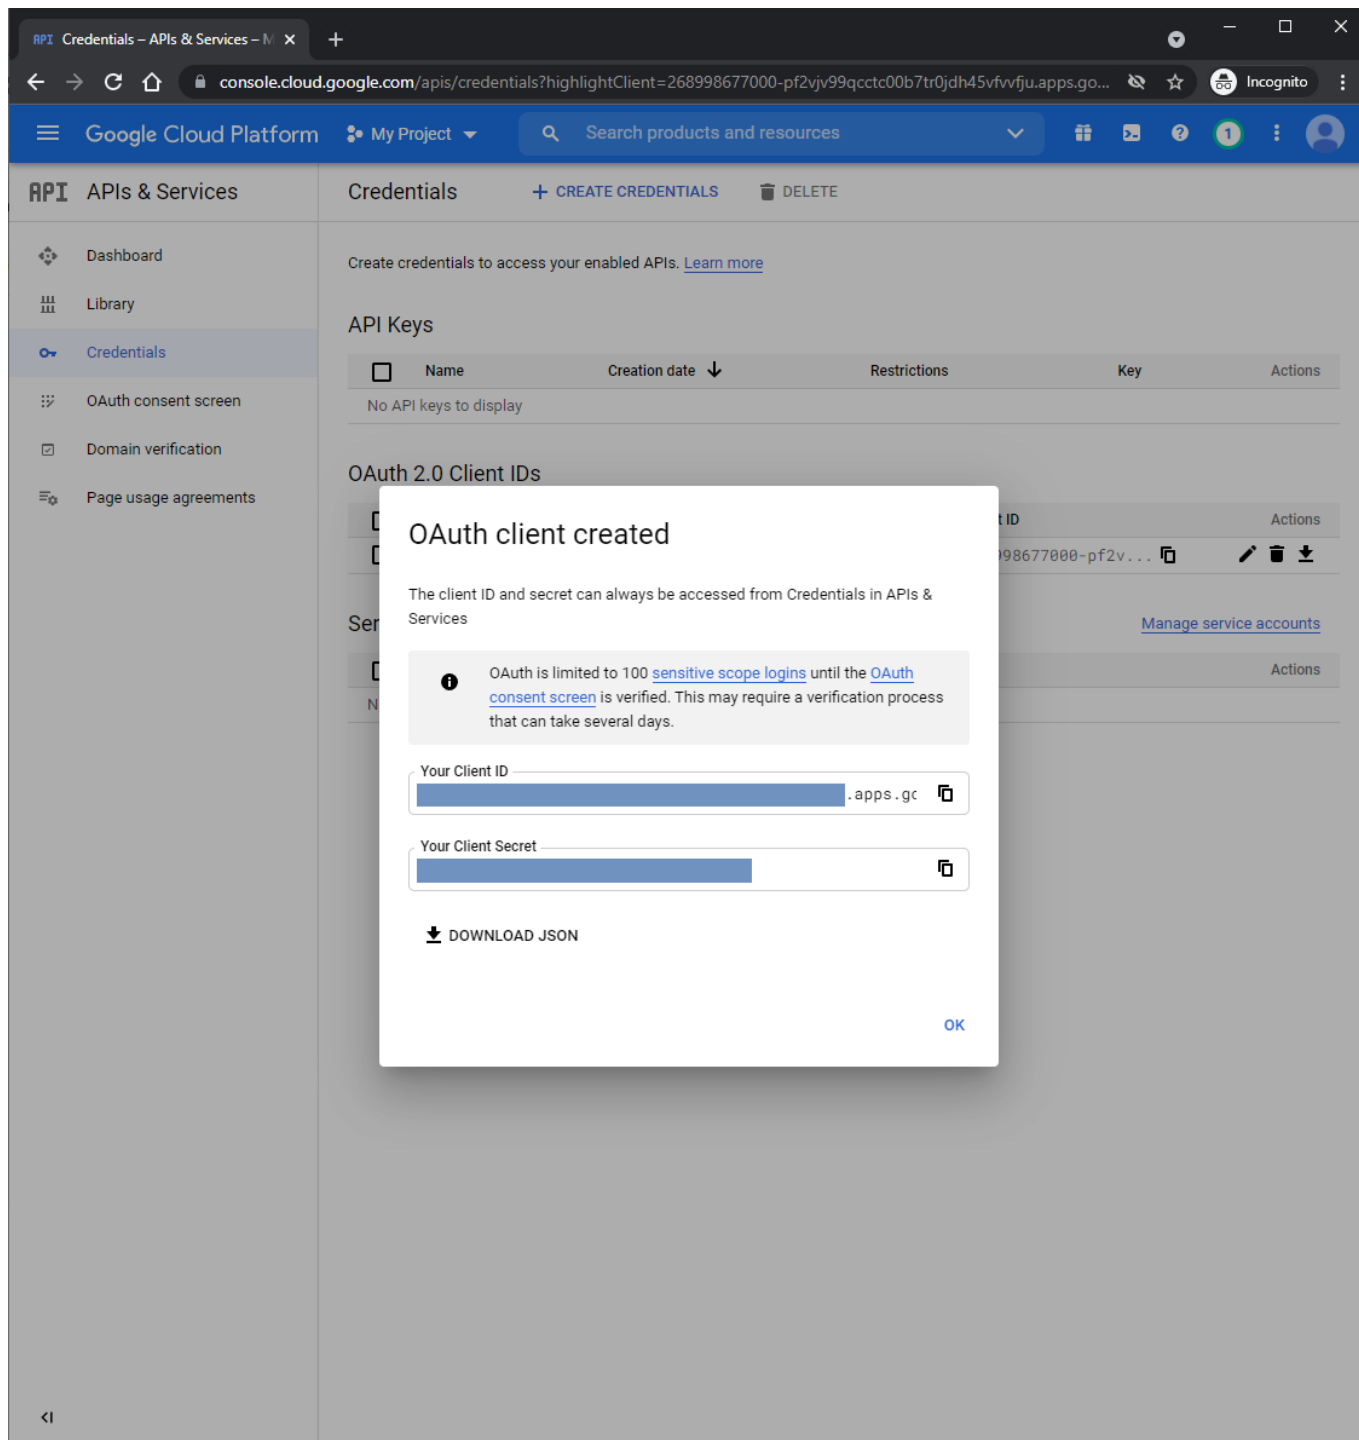

URIs *

https://login.directo.ee/logos/oauthCallback.asp

+ ADD URI

CREATE CANCEL

4. Lõplik tulemus on „Client ID“ ja „Client Secret“ väärtused mis tuleb komaga eraldatuna lisada Directosse süsteemi seadistuse „Google drive client_id ja client_secret“ väärtuseks. Näiteks 124124.apps.googleusercontent.com,fqowjfoiqwhfoiqwf5g.

===== Google Drive'i sisse lülitamine Directos ===== Lõpetuseks tuleb Directos seadistuste alt minna „Manuste hoiustamine“ ja sealt vajutada valikule „Hoia dokumendi manuseid Google Drive's“. Peale vajutamist avaneb Google'i enda login aken kus tuleb ennast autentida kontoga mida soovite manuste hoiustamiseks kasutada. Peale autentimist aken sulgub ja edaspidi liiguvad kõik manustatud dokumendid otse Google Drive'i ja kõik olemasolevad manused tõstetakse taustal ümber.
