## 2.2. Errors

While confirming of the invoice, Directo checks if the settings are filled correctly. If there is something incorrect - there is no possibility to confirm the invoice with checkbox **e-sending**. You may confirm invoice with out the checkbox **e-sending** - it will not be send to KSEF.

For example, in the picture we see error message.

The error is in field AdresL1

In wiki part **3. Sales invoices tags** you have to find AdresL1 field and check the setting according to the description:

Name	Description
<b>Podmiot1</b>	Information about the seller
Adres/AdresL1	Setting→Master Settings→Company legal address
<b>Podmiot2</b>	Information about the buyer

Name	Description
Adres/AdresL1	Customer fields: <b>Street, City, Postal code</b>

Confirming check.  
 Invoice needs to be sent as e-invoice, but sender/customer/invoice contains data that does not validate - XSD version: KSeF\_FA2  
 XML Validation: Invalid simple type value: ". Location: /\*:Faktura[1]/\*:Podmiot2[1]/\*:Adres[1]/\*:AdresL1[1]  
 Invoice is not confirmed!  
[Back](#)

If you are using datafield for invoice No. - some errors may be seen in document after confirmation:

The screenshot shows a software interface for invoice management. At the top, there is a toolbar with buttons like 'Close', 'New', 'Copy', 'Save', 'Mail', 'Print', 'Preview', 'Sign test\_parasas', 'Sign test2', 'Transaction', 'Unconfirm', and 'Status'. Below the toolbar, the 'Invoice 2300110' details are displayed, including fields for Customer (KSEF), Asset, Budget, Credit rating, and Ordered by. A 'Proceeding' section has radio buttons for 'Update stock' and 'e-sending'. The 'Receipts' section shows a warning message: 'Waiting for electronic dispatching : KSEF-E-INVOICE 29.11.2023 9:00:17' and 'Another invoice with same external invoice number already sent.' Below this, a summary table shows 'Subtotal -27.00', 'Prepayment 0.00', and 'Total -30.20'.

### 3. KSeF report

KSeF report is in Main menu→Finance→REPORTS→KSeF report

In report are only sales invoices documents that:

- Are confirmed
- Are marked **e-sending**

#### Filters:

- **Number** - invoice No. (if datafield is used - datafield invoice No.)
- **Customer** - customer code
- **Has external ID?::**
  - **Yes** - invoices that has KSeF No.
  - **No** - invoices that has not KSeF No. Invoices may have some errors or are in sending progress

#### Report information:
