KSEF 2026

1. Settings

• Master Settings

- **MANDATORY** Master Settings→Sale settings→e-invoice sending is selectable on invoice - **yes**
- **MANDATORY** Master Settings→Common settings→Transport parameter types to printout append the transport parameter type **SAFT_JPK**
- **MANDATORY** Master Settings→Common settings
 - Company legal address
 - Company legal name
 - Company VAT no (only numbers)
- Master Settings→Transport→Polish e-invoice (KSeF) sending delay in hours (0-24) - the interval of sending information to KSEF after invoice confirmation is:
 - if **0** or empty → 0-15 minutes (**by default**)
 - otherwise → hour in setting + (0 – 15) minutes (the value is specified without minutes)
 - if the setting Invoice datafield for external invoice number is used - the time is calculated from the latest confirmed invoice, where the value of the data field matches.
- **MANDATORY** Master Settings→Transport→Polish e-invoice (KSeF) authentication token - generated token number from KSEF for integration
 - In KSEF **Select the role to which the token is assigned** added rights:
 - access invoices
 - issue invoices

KSEF page information:

First, grant permissions to send and view invoices, and then generate a token. Below you will find instructions on how to assign permissions in the KSeF system.

To check the status of shipping a token, go to the **List of tokens** tab.

Attention! The token number is displayed only once. Please save it before leaving the page.

- Master Settings→Receipt settings→Invoice datafield for external invoice number - if invoice No. must be taken from sales invoice datafield - choose correct datafield with the invoice No. **By default** it is empty and document No. is from sales invoice header field **Invoice**

- **Common settings**

- Sales invoice dates in tags P_1 and P_6 are according to settings: SETTINGS → COMMON SETTINGS → TRANSPORT PARAMETERS:

- CODE - DataWystawienia
- TYPE - SAFT_JPK

- If PARAMETER 2 has value **2**, information should be:

- **Date** → P_6 (*Description: Data dokonania lub zakończenia dostawy towarów lub wykonania usługi*)
- **Sent** → P_1 (*Description: Data wystawienia*)

- Otherwise, if PARAMETER 2 has value **1** or the value is empty or the transport parameter does not exists, information should be:

- **Date** → P_1 (*Description: Data wystawienia*)
- **Sent** → P_6 (*Description: Data dokonania lub zakończenia dostawy*)

towarów lub wykonania usługi)

• Finance settings

- **MANDATORY VAT code** (Setting→Finance Settings→VAT codes)
 - **VAT% (by default)**
 - datafield **KSEF Stawka podatku** (code: KSEF_STAW_PODAT) if needed  Mandatory if **VAT%** is **0**

• Customer card:

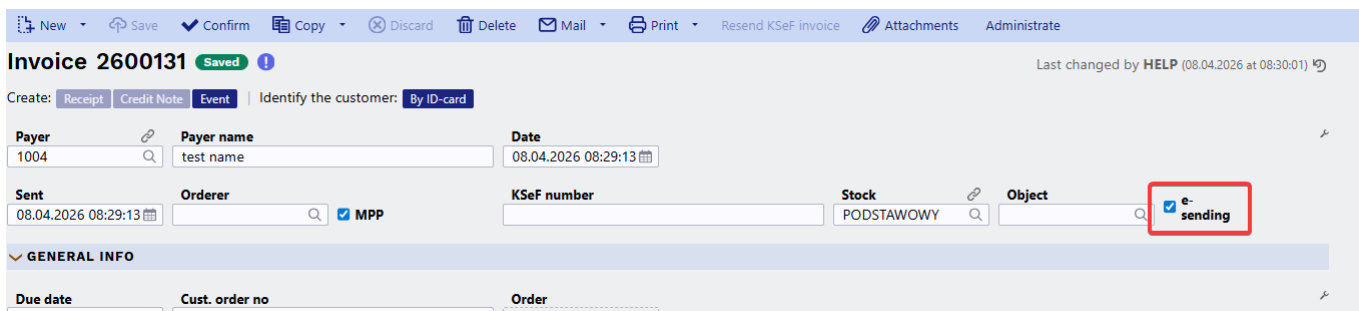

- **MANDATORY: Name**
- **MANDATORY: Street**
- **MANDATORY: Country**
- **City** (can be empty)
- **Postal code** (can be empty)
- **Email** (can be empty)
- **Phone** (can be empty)
- **Vat reg no** - without country code, otherwise **BRAK** (can be empty) ( must be without country code)
- Only if customer country is not PL (example: GR (Greece)), but VAT code is PL, correct country should be filled this way:
 - **Country** - GR (Greece) - customer country
 - **VAT country** - PL (Poland) - as the VAT code is PL
- **KSeF role** - choose only in those customer cards that customer is **2 (Recipient)** and the customer card will be added in sales invoices field **Orderer**

2. Sending

 In KSEF there is no checking of duplicates.

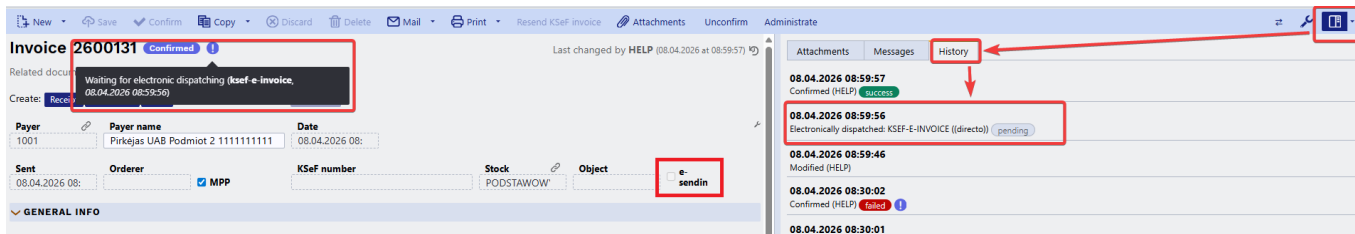

2.1. Sending of the invoice

IF sales invoice should be sent to KSEF before confirming, checkbox in sales invoice document **e-sending** should be marked.  It will be marked automatically.

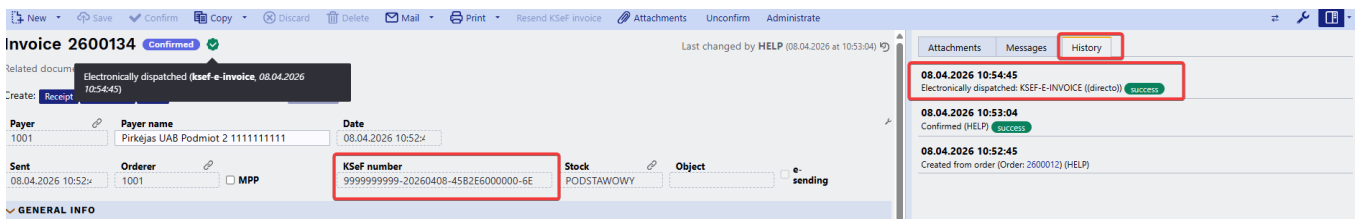

The screenshot shows a software interface for creating an invoice. At the top, there is a menu bar with options like 'New', 'Save', 'Confirm', 'Copy', 'Discard', 'Delete', 'Mail', 'Print', 'Resend KSeF invoice', 'Attachments', and 'Administrate'. Below the menu, the invoice number '2600131' is displayed with a 'Saved' status. The form includes fields for 'Payer' (1004), 'Payer name' (test name), 'Date' (08.04.2026 08:29:13), 'Sent' (08.04.2026 08:29:13), 'Orderer' (MPP), 'KSeF number', 'Stock' (PODSTAWOWY), and 'Object'. A red box highlights the 'e-sending' checkbox, which is checked. A 'GENERAL INFO' section is partially visible at the bottom.

After confirm the invoice there will be mark: **Waiting for electronic dispatching (ksef-e-invoice 08.04.2025 08:59:56)** and checkbox **e-sending** will not be marked.

When the invoice will be send to KSEF, invoice will have KSEF document No in field **KSeF number**

2.2. Errors

While confirming of the invoice, Directo checks if the settings are filled correctly. If there is something incorrect - there is no possibility to confirm the invoice with checkbox **e-sending**. You may confirm invoice with out the checkbox **e-sending** - it will not be send to KSEF.

For example, in the picture we see error message.
The error is in field AdresL1

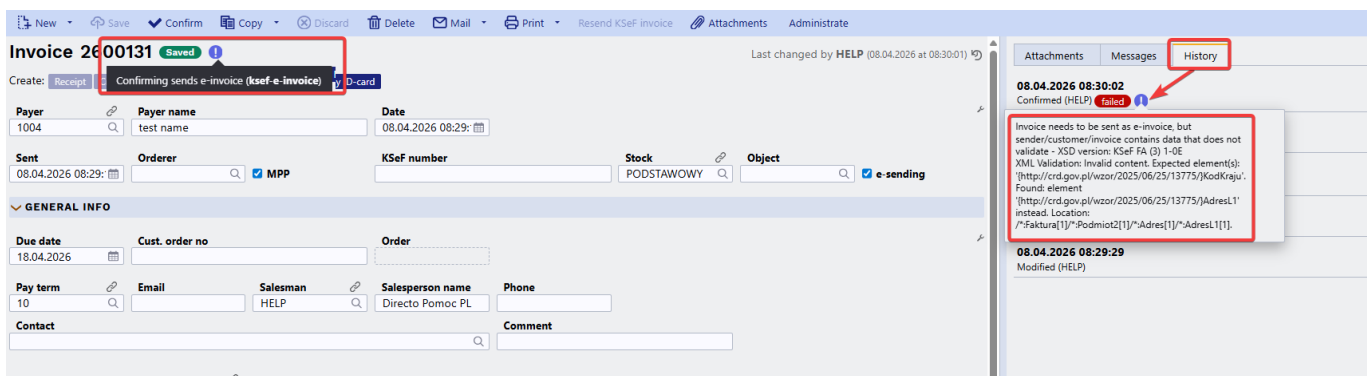

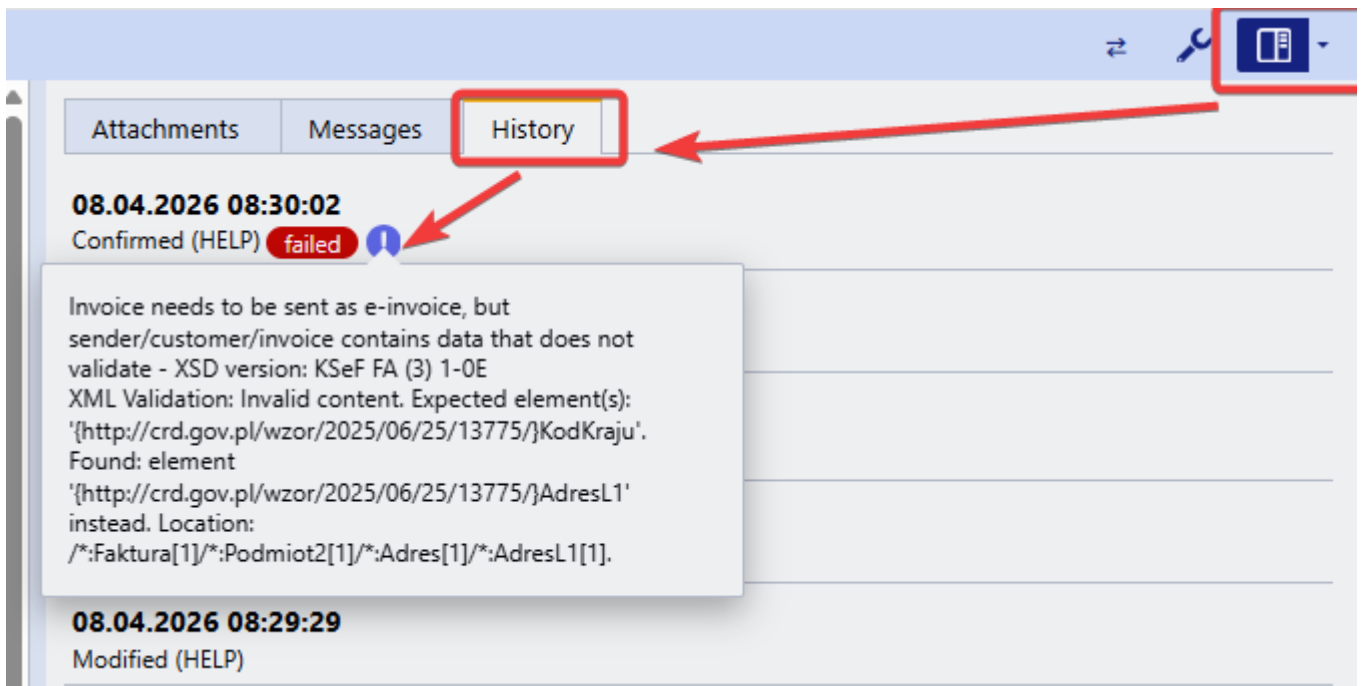

In wiki part **3. Sales invoices tags** you have to find AdresL1 field and check

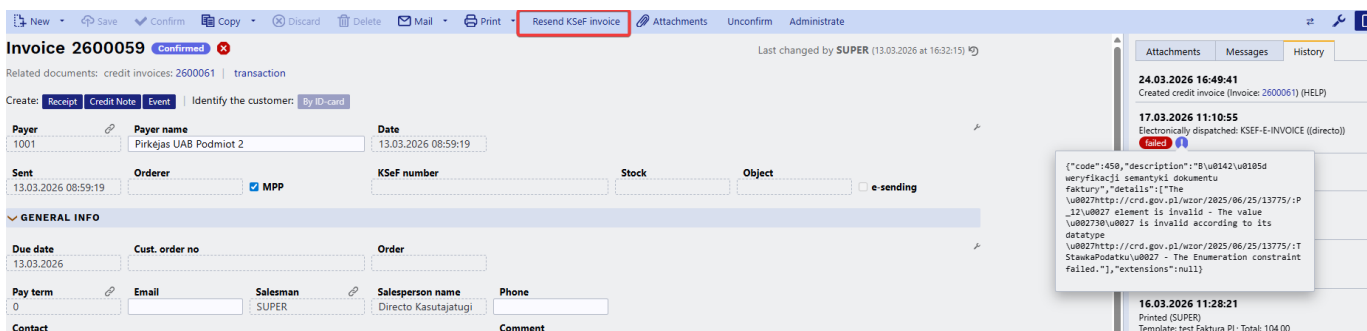

the setting according to the description:

Name	Description	Directo
Podmiot1	<i>Information about the seller</i>	
<i>Adres/AdresL1</i>	Adres podatnika - linia pierwsza Maksymalna ilość znaków: 512 Przykład wypełnienia: ul. Błękitna 14, 11-111 Warszawa	Setting→Master Settings→Company legal address Setting→Master Settings→Company legal address 2 Setting→Master Settings→Company legal address 3 Separated by space
Podmiot2	<i>Information about the buyer</i>	
<i>Adres/AdresL1</i>	Adres nabywcy - linia pierwsza Maksymalna ilość znaków: 512 Przykład wypełnienia: ul. Błękitna 14, 11-111 Warszawa	Customer card fields: Street, City, Postal code Separated by space.

3. Resending

After confirmation, if there will be some issues while sending invoice to KSEF you can read error messages, fix the errors and resend the invoice by using the button in sales invoice document **Resend KSeF invoice**

4. Examples of situations with the sales invoices

4.1. Credit sales invoice

4.1.1. FIXME - Item / services - credit sales invoice

4.1.2. Bonus credit sales invoice

- Create separate item with the item code **RABAT** and item class code **RABAT**

Item class should have VAT code with 0 VAT %  This item code will be used only for invoices connections. Do not use this item code in any other cases or sums.

- In sales invoices add additional columns in the row: **Constant4** and **Text4**
 - **Constant4** - write Directo invoice number for which invoices bonus is
 - **Text4** - in one of the rows add reason / explanation of the bonus

How to fill correctly row of the sales invoices?:

- In first row add the bonus item that you use with the correct VAT and income account. In this row add correct quantity and unit price.
- In second row choose item with the code **RABAT**  **do not add a sum for the row.** You should add as many row with the item code **RABAT** as many invoices you have that, the bonus is for. To send correct information to the KSEF at least one row with the item code **RABAT** should be.
- **Constant4** - write Directo invoice number for which invoices bonus is (one row = one invoice number)  **MANDATORY**
- **Text4** - in one of the rows add reason / explanation of the bonus  **MANDATORY**

No.	Item	Qty	Unit price	Total	VAT Code	Constant4	Text4	Description
1	159635	-1	150	-150	4			
2	RABAT	1	0	0	0	2600141	Za okres: 2026-03	
3	RABAT	1	0	0	0	2600140		

4.1.3. FIXME - Company name - credit sales invoice

4.1.4. FIXME - Customer address - credit sales invoice

4.1.5. FIXME - Customer VAT code - credit sales invoice

4.2. Customer not PL, VAT code - PL

If customer is foreigner, but has a Polish VAT code, you must correctly fill in country and VAT details on the customer card:

- **Country** - company registration country
- **VAT country** - choose: **PL (Polska)**
- **Vat reg no** - Polish VAT code (only numbers)

The screenshot shows a software interface for customer management. At the top, there are navigation buttons: Close, New, Copy, Refresh, Delete, Save, Mail, PRINT, and a status dropdown set to 'View'. Below these are buttons for Survey, Event, Events (0), and Get Regon API data. The main area has tabs for General info, Contacts, Classes, Actions, Amendments, Changes, Transport, and Surveys. The 'General info' tab is selected, showing fields for Code (TEST_KSEF_UE), Class, Object, and Status. The Name field contains 'TEST KSEF'. Address fields include Ulica (adres1), Miasto (adrs miasto), and Kod pocztowy (ko2222). The Country field is set to 'GR (Grecja)'. There are also fields for Representative, Phone, Skype, Email, and Comment. At the bottom, there are fields for Bank, Bank account/IBAN, Pay term, Del term, Salesman (HELP), Price formula, Reg #, Currency, VAT zone (Inside EU), VAT code, VAT reg no (1111111118), VAT country (PL (Polska)), Reminders (checked), Delivery (Stock Delivery), Auto print (No), and Destination. The 'Vat reg no' and 'VAT country' fields are highlighted with a red box.

4.3. FIXME - Customer and Recipient (Podmiot3→Odbiorca)

4.4. Customer and Factoring (Podmiot3→Faktor)

If in the invoice is marked **Factoring** checkbox and filled bank account in field **BANK ACCOUNT/IBAN** invoice will be send with Podmiot3→Rola→„1” - Faktor1

4.4.1. Factoring Bank settings

- Settings→Finance Settings→Banks - create bank card with bank information:
 - **CODE** - bank code or bank code in Directo
 - **NAME** - correct full bank name
 - **ADDRESS** - correct full bank address
 - **SWIFT** - bank SWIFT code
 - **IBAN COUNTRY** - bank country
 - **VAT REG NO** - bank VAT code
- Settings→Finance Settings→Bank accounts - create bank accounts
 - **BANK ACCOUNT/IBAN** - bank account number
 - **BANK** - choose bank where is this account

If in more then one bank account card the bank account number is the same, please use the same bank. To the KSEF bank information (if there is more then one bank account card with the same bank account number) will be displayed in random order. Part: Settings→Finance Settings→Bank accounts→BANK

4.4.2. Factoring sales invoices information

Create sales invoices as usual.

Fill additional fields for factoring:

- **Factoring** - mark checkbox
- **Bank account/IBAN** - choose bank account for factoring (use DoubleClick)

If there is no **Factoring** and **Bank account/IBAN** numbers you can add them in part **GENERAL INFO**

4.5. Sales invoice with RR

If in Directo sales invoices you are using **RR** in rows, to the KSEF information will be send according to these rules:

- **Quantity** - from the first row with the same **RR** number
- **Sum** - from all rows with the same **RR** number (field RR suma) calculated by formula: Qty * Net price
- **VAT code configuration** - from the first row with the same **RR** number
- **Item information: name and code** - from the first row with the same **RR** number
